BENEDICTINES.

Sisters and Priests Are Driven from Ecuador by Outrages. (REGULAR ASSOCIATED PRESS REPORT.) NEW YORK, Aug. 2.—The story the five Benedictine Sisters who re-turned from Ecquador to St. Walberg, a convent in Elizabeth, having been driven from Ecuador by the outrages which the church is at present being subjected to there by the Liberal revo-

subjected to there by the Liberal revoutionists, was investigated by a reporter. Sister Edwarata, who was seen
at the convent, said:

"We, like the three sisters Genevieve,
Josephine and Frances, left for Ecuador
nearly eight years ago to establish a
school there. We were assigned to
Bahia de Caraquez, from which place
we have just returned, giving up a
school of over seventy pupils. We,
however, were more fortunate than they
were and did not suffer personal vioence, although we were constantly insited and were often in fear of our
lives. Every band of marauding revoutionists which passed the convent
oried: Down with the Cassocks, and
made similar demonstrations. They accussed the church of being friendly to
the government.

cus at the church of being friendly to the government.

"Two weeks ago the convent at Rocafuerte which contained ten sisters was surrounded by a mob which demanded entrance. It was refused, whereupon the leader commanded the men to fire on the convent and its inmates. At this moment a triendly Ecuadoran appeared and, running between the men and the convent, directly in the line of fire, asked them to desist, informing them that none but women were in the building. During the delay thus caused, a number of our sympathisers gathered and dispersed the mob. Such outrages became so frequent that we at last felt compelled to leave in order to save our lives, as have all the other sisters and priests in Ecuador. The seventeen sisters are expected on the next steamer and no more missionary work will be attempted in Ecuador until the revolution is over."

A DEAD BODY.

What May Prove to be a Murder Case Near Streator. Case Near Streator.

GEGULAR ASSOCIATED PRESS REPORT.)

STREATOR (III...) Aug. 2.—A possible murder came to light here last evening when a farmer living six miles north of the dead body of a man lying in a field near his house. It to believed that the remains are those of a man named James Downer, long a resident of Streator. Downer has been missing for a few daws, and at the time of his last appearance he had \$180 in his possession. There was no money at the body, however, and the supposition is that Downer was murderd and robbed by some person who was aware tat he had the money with him. His father has been sent for to see if he can identify the body.

Japanese Refused Permission to Witness American Naval Maneuvers. (REGULAR ASSOCIATED PRESS REPORT.) NEW YORK, Aug. 2.—A Herald dis

patch from Washington says:
"The Navy Department has refused permission to the Japanese government to have one of its officers witness the maneuvers of the North Atlantic squadron. This request was preferred by the Japanese Minister some days ago, and he has just received a reply containing the refusal. The department authorities state in this communication that the maneuvers will be extremely simple in character, and will be simply preliminary to others to be held in the future. atch from Washington says:

ilminary to others to be held in the future.

"Japan is not the only nation which is interested in the coming naval maneuveres of the North Atlantic squadron. Other nations have intimated that they would like to have an officer witness the maneuvers, but none have gone to the length which Japan took. Besides informing the Japanese government of their refusal in this connection. I understand that their reply says they will be glad to have a Japanese officer witness the maneuvers of the squadron when our navy is more familiar with drills, exercises, etc. The vessels will probably leave about August 7 for Newport, where they will remain for a short time, and will then go to Portland to attend a fair to be held there. Great interest is being manifested in the maneuvers, and considerable benefit is expected to result."

THE GOLD WITHDRAWALS.

THE GOLD WITHDRAWALS.

The Treasury Officials Not Disturbed Thereby—Autumn Shipments.

(REGULAR ASSOCIATED PIRSS REPORT.)

WASHINGTON, Aug. 2.—The withdrawal today of \$2,360,000 in gold from the sub-treasury in New York is not regarded by the Treasury officials as cause for uneasiness. Since February last the bond syndicate, it is said, has fully demonstrated its ability to protect the gold reserve from any zerious encroachments. and it is not doubled that today's withdrawals could have been prevented had such a course been deemed at all necessary to save an impairment of the public confidence.

So far as is known here, there are no indications of further withdrawals, but even should they continue for a short time, the Treasury officials say that they would not feel disturbed in consequence. They argue that the autumn shipments to Europe of grain and other farm products are certain to set in late in the present month and continue through November, with the result that the gold movement will to toward the United States.

(REGULAR ASSOCIATED PRESS REPORT.) ble.) Advices from Foo-Chow are that a telegram received there on the 3d says a fearful massacre of Christians has occurred at Ku-Cheng. Five for-eign ladies are among the murdered.

UNPAID CLAIMS Work of the Internal Revenue Bu

reau-Income Tax.
(REGULAR ASSOCIATED PRESS REPORT.)
WASHINGTON, Aug. 2.—The work ncident to the payment of claims under the act appropriating \$338,298 in li-quidation of unpaid bounty claims for sugar produced prior to August 28, 1894 has been rapidly pushed forward in the Internal Revenue Bureau and already a large number of claims have been sent to the Auditor for approval. They will not be acted upon until after the Comptroller has passed upon the ques-tion of the constitutionality of the act

comptroller has passed upon the question of the constitutionality of the act making the appropriation.

Claims under the act appropriating \$5,000,000 as a bounty on last year's crop of cane sugar are coming in very slowly. Less than a dozen have been received thus far and several of these has been sent back for correction as to the evidence of correct polarized tests.

The application for a refund of the amounts paid as income tax prior to the decision of the United States Supreme Court against the constitutionality of the income tax are coming in surprisingly slow. Not more than one-half of the whole number has yet been received but those already at hand are being examined and certified to the Secretary for approval, preparatory to their payment.

A COLLIERY FLOODED.

(REGULAR ASSOCIATED PRESS REPORT.)
GLASGOW, Aug. 2.—(By Atlantic Cable.) The Auchen Harvie colliery at Salt Coats, a town on the Bay of Ayr, twenty-four miles southwest of here, has been flooded. Sixty men have been rescued and fourteen are entombed in the mine, and it is believed they have perished. Searching parties have been formed, but are up-\*\*y to penetrate to the point where the unfortunate victims are.

There is a scene of intense excitement at the pit's mouth, where the wives, mothers and families of the entombed miners are engaged in wringing their hands and giving all sorts of manifestations of grief and despair. Those who were rescued arrived at the surface in a most exhausted condition.

Associated Press Reports Briefed. Quinlan Again Said to Have "Peached."

> He Discloses the Details of Pitzel's Murder.

The Police Are Reported to Have Promised to Him Immunity.

t is Claimed That the Corpse Was Sent to Philadelphia from Chi-cago After the Crime—Mrs. Conner's Clothes.

(REGULAR ASSOCIATED PRESS REPORTA) CHICAGO, Aug. 2.-The police have CHICAGO, Aug. 2.—The police have at last received a partial confession from Pat Quinian, the janitor of the Holmes "castle," and have, they believe, positive evidence that Benjamin Pitzel was murdered in this city by Holmes and the corpse sent to Philadelphia. The confession was wormed out of the Quinians by means of a tip given the local officers by Detective Geyer of Philadelphia, who arrived in this city today.

today. The exact nature of the story told by the Quinlans the police will not re-veal, and, in fact, Chief Badenoch and Inspector Fitzpatrick have both denied that Quinlan or his wife made any con fession at all. Notwithstanding the denial of the police, however, it is posi-tively known that Quinlan made and signed a confession, because it was left signed a confession, because it was left where Quinlan's signature on the document could be seen, although the subject matter under which he wrote his name could not be ascertained. Tonight, however, it was learned that a confession was made covering all the details of the murder of Pitzel, with the exception of the actual place in which the crime was committed. This the police declarations will have the the police declare they will, have to-

morrow.

The confession was obtained from the Quinlans only after the hardest kind of work, and at the price of a promise of immunity from punishment for all part the Quinlans may have borne in the murder of Pitzel or other crimes committed by Holmes.

ABOUT PETERED OUT.

MEMPHIS, Aug. 2.—The Littlie Rock and of the Holmes murder case is about

MEMPHIS, Aug. 2.—The Little Rock end of the Holmes murder case is about petered out. In the next forty-eight hours the police will probably have proven that Convict John Caldwell could have had no connection with Holmes, as he was in the Tennessee penitentiary at the time that he claims to have been operating at Fort Worth, Tex., for Holmes.

MRS. CONNER'S CLOTHES. CHICAGO, Aug. 2.—Several articles of clothing found at Holmes's "castle" were identified today as having belonged to Mrs. Conner. The identification was by the missing woman's hus-

were identified today as having belonged to Mrs. Conner. The identification was by the missing woman's husband.

Mrs. Pat Quinlan knew of the disappearance of Mrs. Conner in Holmes's "castle," and saw the body of the woman after she was dead. She further knew and has admitted that Pearl Conner disappeared mysteriously in the "castle" after her return from a trip to the Quinlan farm at Lake View, Mich. Chief Badenoch took Mrs. Quinlan and her husband to the "castle" today with inspector Fitzpatrick and Detectives Fitzpatrick and Norton. The object of the trip was more for the purpose of letting Quinlan and his wife meet than any other.

The Chief now has proof positive that Mrs. Conner and Pearl, her daughter, or Cora Quinlan, were murdered in the building while the mother was ip-Holmes's employ. Quinlan has given information within the last twenty-four hours which brings the charge of murder nearer to Holmes than it has been in Chicago at any time since the case opened. Quinlan and his wife, while demonstrating to the police that they were at no time guilty of the crime of murder themselves, have made admissions by which the Chief could use them on the stand as valuable witnesses against Holmes in proving that Mrs. Conner and the child were made way with by Holmes for the purpose of securing insurance which Mrs. Conner carried on her life in favor of her daughter.

Further, Quinlan and his wife have proved to the police that Mrs. Conner was so well aware of the scheme which Holmes was operating that it became necessary for Holmes to put the woman out of the way. The Toronto charge of murder is the strongest one against Holmes, and if he is taken there he probably will be hanged.

MONTANA LAND.

MONTANA LAND.

Cost of Classification According t Two Different Authorities.
(REGULAR ASSOCIATED PRESS REPORT.)

SALT LAKE (Utah.) Aug. 2.—A special to the Herald from Butte, Mont., says that Hon. Thomas G. Merrill, president of the Montana State Board of Mineral Land Commissioners, has made a statement in reply to the Associated Press report from Washington as to the cost and a leged dissatisfaction of the cost and a leged dissatisfaction of the execution and classification of mineral lands within the Northern Pacific grant by the government commissioners. He declares that the statements of Commissioner Lamoreaux are gross misrepresentations and without foundation in fact. Instead of costing the government 25 cents per acre for classification, the actual expense so far has been 11-5 cents per acre, and the work has been eminently satisfactory to the people.

TRENTON (N. J.,) Aug. 2—Vice-Chancellor Bird today granted a rule to show cause, returnable tomorrow, why a receiver should be appointed for the Trenton-Rubber-Company, of which ex-Mayor, Frank A. Magown is president and general manager. The application was made on behalf of Jacob Burnsley of Detroit, and Orlando M. Harper of New York for themselves and other creditors. The application alleged that the company is insolvent and unable to meet obligations, having liabilities of \$300,000.

ALLEGED MAIL FRAUDS.

ssistant Postmaster-General Neil-son Stands Up for Flint. REGULAR ASSOCIATED PRESS REPORT)
WASHINGTON, Aug. 2.—A good deal of interest was aroused at the Postoffice Department this afternoon by the story printed in San Francisco stating that Postal Clerk E. Colver had

by the story printed in San Francisco stating that Postal Clerk E. Colver had charged Superintendent Samuel Flint of the Railway Mail Service with being a party to extensive railway-mail frauds against the government. Second Assistant Postmaster-General Nellson denies positively that Fint was concerned in the frauds.

"On the contrary," he said, "it was directly due to Mr. Flint that an extensive fraud was discovered last June at the time when Colver charges that Flint was in collusion with the railroads for the purpose of defrauding the department. In that month the mails on the Pacific Coast were weighed in order to obtain a basis for payment for carrying them during the four years. A small circular on a small route attracted Superintendent Flint's attention, and he followed it up skilfully and finally brought about the readjustment of a much larger route, saving the government much money. It is no doubt some confused information in regard to this that caused Colver to make the charge that he has made against Mr. Flint."

While no official action has been taken, it is thought by the officials in the Potsoffice Department that Colver is almost certain to lose his head within a day or two. The method of the fraud attempted last year was to divert mail matter from other routes to the one that was being weighed.

THE "TEXAS TERROR."

ROB A BANK.

Against a Couple of Snags in New York City—Is "Thrashed by a "Bowery Tough."

(REGULAR ASSOCIATED PRESS REPORT.) NEW YORK, Aug. 2.—A small, mid-dle-aged man walked into the Broad-way ticket office yesterday and pur-chased a ticket on the Pacific Mail steamer to Los Angeles. He remarked incidentally that he was going there to rob a bank, and, as evidence of good faith; produced a 44-caliber re-volver.

The clerk followed him out and told

a policeman what the the man had said. The officer arrested him and took him to police headquarters. There he said that his name was T. A. Cody he said that his name was T. A. Cody of Los Angeles, and that he had just ianded from England, where he had been engaged in the "Wild West" business with "Texas Jack." He was sent to the Jefferson Market Court. While waiting his turn in the pen, he told another prisoner that he was "Cody, the Texas Terror." The other prisoner said modesty that he was only a "Bowery tough" himself, but he thought a "Bowery tough" was a match for a "Texas Terror" any day. Cody was of the same opinion after he had been knocked down twice, and howled for mercy.

mercy.

The magistrate let him go, on Inding that he had just time enough to catch the steamer, but he had to leave his gun behind.

THE CHUTE ACCIDENT.

The List of Those Injured Thursday

CHICAGO, Aug. 2.—The corrected list f injured as the result of the breaking of the cable at Boynton Chutes at Sixty-third street and Cottage Grove avenue last night is as follows: Mrs. Ver-nie Heth, aged 23, right side and both legs badly bruised, will probably die; Miss M. C. Crook, aged 74, right leg broken, bruised internally, condition Miss M. C. Crook, aged 74, right leg broken, bruised internally, condition critical: Charles Dunlap, aged 48, bruised about head and right side, bad-ly hurt: George Emerson, a cyclist, hurt in the groin, right leg bruised, will probably die: Fred Ebbert aged 20 left probably die; Fred Eddert, aged 20, lett leg fractured, cut and bruised about the face, internal injuries; Max Erlinborn, platform boy, aged 19, injured about shoulders and back; Maud Herfforn, aged 24, bruised on head and neck; Mrs. aged 24, bruised on head and neck; Mrs.

Heath, aged 23, head bruised and leg
twisted: May McInerney, aged 17,
bruised about the head and body; Katie
Mornyo, aged 18, cut about the face;
Smith Mornyo, aged 18, bruised about
head and face; Charles A. Schildernbrau, aged 25, injured about legs; Miss
S. J. White, aged 30, bruised and cut
about the head.

AN EDITORIAL FIGHT.

The Stanbury Sentinel Man's Wife Horsewhips the Herald Man.

REGULAR ASSOCIATED PRESS REPORT.)
ST. JOSEPH (Mo.,) Aug. 2.—P. T Williams, editor of the Stanbury Herald and A. W. Weimer, editor of the Stanbury Sentinel, have been indulging in a newspaper quarrel. Williams stated in his paper yesterday that he had accumulated all his property him-self, and, while his taxes were not as much as those of the editor of the Senti-nel, none of his wealth had come in the way of a hymenal contract made at the

way or a hymenal contract made at the altar.

Mrs. Weimer considered that the paragraph reflected on her. She is the daughter of J. W. Hampton, a Denver millionaire who lived for many years at Mount Pleasant, Iowa. On the day of her marriage to Weimer her father presented him with a check for \$10,000, and it was to this present that reference was made by Williams.

In the afternoon Mrs. Weimer, accompanied by her husband, went to the Herald office and horsewhipped Williams, while Weimer struck his rival over the head with a revolver.

HUNTING NEGROES.

Posse Scouring the Country About

Marietta, Ga. (REGULAR ASSOCIATED PRESS REPORT.) ATLANTA (Ga.,) Aug. 2.—Saturday night Jesse Hardeman, a negro farm-hand 25 years of age, assaulted in bruta nanner the wife of J. H. Robinson, who ives two miles from Marietta. About twenty men were out searching for the negro last night when they met a negro last night when they met a party of negroes on the road. Suddenly one of the negroes arose in the wagon, and, leveling a double-barrel shotgun at the approaching party, fired both barrels. Charles Boughly received nine-teen buckshot in his left arm. The white men returned the fire until a hundred shots had been exchanged. Sheriff Davenport of Cobb county has organized a large posse and is scouring the surrounding country for negroes. Nearly every white and colored man is armed.

the Scare.

Sharp Nose of the Arapahoes on the "War."

The Indians Will Have Game Despite the Laws of the White Men.

Lieut, Gen. Schofield is Interviewed n the Subject—Nothing Very Serious, He Says, is Ever Likely to Happen.

(REGULAR ASSOCIATED PRESS REPORT.)

LANDER (Wyo.,) Aug. 2.-For the ast two weeks the mountains have been alive with Indians. Now they all em to be in hiding. Sharp Nose, chief of the Arapahoes, has been interviewed in regard to the Arapahoes leaving the reservation and joining a band of fifty Sioux at the head of the Little Papoosie River. He admitted that he knew that the Sioux had gone to the place men-tioned, but it was to meet the Utes, and they were to "visit." When asked if he thought it was right for so many Indians to be off their reservations at once, hunting and killing game, he replied: "The reservation is a home for the Indians, where the white man has no right to come by law, but he does come and pasture his stock there. Now will have it. The white man can make

no law that will stop him."

This, from the head chief of the Arapahoes, is evidence of their sympathy ahoes, is evidence of their sympathy with the Bannocks on this question. There were on Wednesday near the head waters of the Little Papoosie River, twenty miles south of Lander, fifty Sioux, fifty Arapahoes and not less than 200 Utes. There were also several straggling bands of Shoshones going in that direction. One band of the Shoshones when questioned, said that they were on their way to join the Utes in question, and with them were to go and help the Bannocks.

NO DESIRE TO FIGHT.

NO DESIRE TO FIGHT. NO DESIRE TO FIGHT.
WASHINGTON, Aug. 2.—The latest
news from Gen. Coppinger, received at
the War Department via headquarters,
Omaha, is reassuring. The dispatch,
dated Omaha, yesterday, is as follows:
"Report was received from Market
Lake this morning which indicated that Indians are returning from Jackson Hole by a straight line to the reserva-tion. To test its correctness the Union Pacific Railway office was asked to tele graph for information to stations along the Oregon Short Line from Soda Springs westward. The following re-

at Pocatello: 'The stage-driver has just reach Soda Springs. Says he left Carraboo this morning. He came through Gray's Lake and the Blackwood country. Re-Lake and the Blackwood country. Lake and the Blackwood country. Reports 200 Bannocks at Gray's Lake on the way from Jackson Hole to the reservation. They say that there has been no fighting and no desire to fight on their part. This scare seems to be over, and settlers understand that the Indians are trying to make their w back to the reservation to avoid troo The information is thoroughly reli

NO CAUSE FOR ALARM. WASHINGTON, Aug. Bureau received a dispatch today from Bureau received a dispatch today from two agencies in the neighborhood of Jackson-Hole country, stating that there was no cause for alarm among the settlers. Maj. Randlett of the Uintah and Ouray agency at Fort Du-chesne, wired: "The Indians reported by Gov. Richards are not from this agency."

agency."
Agent Wilson in charge of the Sho-shones at Fort Washakie, Wyo., sent this dispatch: "No Indians are absent without leave. There is no fear of trouble."

GEN. SCHOFIELD INTERVIEWED. NEW YORK, Aug. 2.—Lieut. Gen. Schofield, commander of the United States army, arrived in this city last States army, arrived in this city last night. He is accompanied by his wife and Col. T. H. Bliss and Col. J. P. Sanger, aides-de-camp of his personal staff. He was met at the hotel by his son, W. B. Schofield, who has just returned from San Francisco, and by his son-in-law, Maj. Andrews. Gen. Schofield is on an official tour of inspection with strong metters and in connection with army matters an will leave today for Thompson, Ct where he intends to spend a few day

will leave today for Thompson, Ct., where he intends to spend a few days resting. In an interview he said:

"I know very little about these troubles in Jackson Hole. As a matter of fact, I have received my best information about it from the newspapers. I was traveling in the West when the first news of any trouble among the Indians reached the East. When I returned to Washington last week I found everything in excellent shape. The troops had already started for Jackson Hole. From present indications I should say that nothing of any serious character is likely to happen there. But then, one can never tell."

"Have any special orders been issued by the War Department regarding the movements of the United States troops?"

troops?"
"Nothing special," said the general. "Nothing special," said the general. "The department commander was authorized to take whatever troops he thought necessary. Gen. Coppinger's first duty is to prevent, if possible, a conflict between the whites and Indians. "There is another thing I would like to talk about and that is about the condition of the United States army. I am proud to say that I find it in very fine condition. Wherever I have been, and I am now on a tour of inspection, I find the army in excellent state of discipline, ready for an emergency at a moment's notice, and everywhere are evidences of content and satisfaction with the service." A STORY OF CRUELTY.

MARKET LAKE (Idaho,) Aug. 2,-

wounded Indian, who was shot seven-teen days ago. He was found three miles from the trail, nearly dead. Gen. Coppinger has sent a surgeon to take care of him.

CANADIAN CREES GATHERING. BUTTE (Mont.) Aug. 2.—Charley Blaine, sub-chief of the Bannock In-dians, arrived here today from Jack-The Redskins Now Have dians, arrived here today from Jacason Hole. He says the Canadian Crees have been gathering in large numbers near Whitehall, Mont., with the intention of joining the Bannoncks. GOV. RICHARDS DEFENDS THE SETTLERS.

DENVER (Colo.,) Aug. 2.-A special to the News from Cheyenne, Wyo., says that the Indian Rights Associa-

DENVER (Colo.,) Aug. 2.—A special to the News from Cheyenne, Wyo., says that the Indian Rights Association having made an attack upon the settlers of Jackson Hole and the Wyoming State officials regarding the Indian troubles, Gov. Richards today made the following reply:

"The statements made by Secretary Ryder of the Indian Department of the American Missionary Association, concerning the Indian troubles in Wyoming, are erroneous. I have information of the killing of only one Indian, who, together with fifteen others, was resisting law officers, and attempting to escape, after having been arrested for killing elk in open violation of the laws of Wyoming. Mr. Ryder can scarcely have any reliable information that I have not. The insinuation that these arrests were planned in order to kill Indians is entirely unwarranted. One of the Indians arrested apon July 14 had a pass signed by Thomas B. Teter, dated at Fort Hall Agency, May 25, glving him permission to be absent thirty days, for the purpose of visiting friends at Shoshone Agency, Wyoming. When arrested, his pass had expired nineteen days. He was more than one hundred miles from the Shoshone Agency, on no reservation, and had 150 fresh elk hides in his possession. The other cases were similar.

"Secretary Ryder's statement beginning: Those of us who know of the brutal character of many of the white men that live in this Western Territory,' would imply that he spoke from personal knowledge. If so, he is guilty of slandering the people of Jackson Hole Valley, who are peaceful, industrious, law-abiding citizens, who have not cost the State a dollar on any criminal account for three years.

"The people resident in Jackson Hole were not aware that an Indian living on sa reservation in Idaho could have a right to come into their midst and slaughter elk for their hides alone, leaving the carcasses to rot, while they could not kill one of these animals for food for their families without violating the law. It does not seem reasonable and it is doubtful whether they

Flagler's Daughter Shoots & Fourteen-year-old Negro. WASHINGTON, Aug. 2.—Miss Fliz-abeth Flagler, daughter of Gen. Flagler, chief of ordnance, well known in army and social circles, killed a four-teen-year-old negro, Ernest Green, to-day, at her home in the suburbs of

teen-year-old negro, Ernest Green, today, at her home in the suburbs of
the city. The Flaglers had been annoyed greatly by boys stealing fruit
and damaging trees. Today Miss Flagler discovered Green on a fence, stealing fruit, and fired at him from a
second-story window. Miss Flagler
gave herself into custody. She is 28
years old, attractive and accomplished. Ernest Green was the son of
Dick Green, one of Secretary Carlisle's
messengers.

A coroner's jury was impanelled this
afternoon and an inquest held. Miss
Flagler was called to the witness stand
and made a statement. The boys had
been scaling the tree and stealing fruit
from their yard and one day last week
she fired into the road. Some clothes
drying on the line were recently stolen
and, as there were so many boys
around, she presumed that some of
them were the thieves. This morning
she heard the branches of the pear tree
rustling. She ran to her room and got
her revolver from the bureau drawer.
She continued:

"If fired at the one near the road and
must have hit the boy. The first day I
shot at the boys was on Monday and
then I called after them and told them
the next time I would shoot at them,
meaning only to frighten them."

The jury came to the following verdict? "We find that the said Ernest
Green came to his death from a builet
fired from a pistol held in the hands of
Elizabeth M. Flagler, but we do not
think she did it with murderous intent.
We believe that the shot was fixed carelessly and indifferently, but on the evidence we cannot hold her."

\*\*Miss Flagler was thereupon released.

\*\*Pillmore Succeeds Tewne.\*\*

SAN FRANCISCO, Aug. 2.—The Examiner says that the board of directors of the Southern Pacific Company have selected General Superintendent J. A. Fillmore to succeed the late A. N. Towne, as general manager. The appointment will have to be ratified by C. P. Huntington before it goes into effect. A. D. Wilder, at present division superintendent, is slated to succeed Fillmore as general superintendent. As successor to Wilder are mentioned J. A. Muir, division superintendent at Los Angeles, and J. L. Frazier, superintendent of the coast division. There is no news of intportance from the front today. Gen. Coppinger with

# SPORTING RECORD. AN UNLUCKY SAILER

THE DEFENDER BEATEN BY AN

Races for the Goelet Cups Begin at Newport-Crack Yachts in Competition.

The Vigilant Wins by Six Minutes from the Jubilee-Volunteer from the Jubilee-Volun Away in the Rear.

Tom Williams and Bay District British Athletes Eligible for the bletle Contests San Procisco Bifurcated Balls.

OREGULAR ASSOCIATED PRESS REPORTA NEWPORT (R. I.) Aug. 2.-The Vigllant won the Goelet cup for sloops to-day because the Defender was forced to withdraw from the race within half a dozen miles of the finish on account of a broken gaff. But for this accident the Vigilant would probably have been nine miles or more behind the Defender

So far as practical results go the rac only relterates what everybody knows that the Defender is the fastest light weather boat ever built in America She outpointed and outfooted the Vigi

weather boat ever built in America. She outpointed and outfooted the Vigilant in the beat to windward, which was the first leg of the course, and gained about eight minutes on her during the second leg, a run before the wind, a course supposed to be most favorable to the center-board yacht. But just as the new vessel undertook a stretoh for home, with only six and a haif miles of the entire thirty-eight to cover, her hollow gaff snapped in two and she was compelled to give up.

At the turning of the second mark the Defender was 7m. 35s. ahead of the Vigilant on the time consumed on the start, and she had the same opportunity to lengthen that she had of Sandy Hook, on July 22, when on a long stretch for home she increased her lead. The last part of the race was a closer stretch, but the high-pointing qualities of the fin-keeler justified the statement that she would have gained on that leg. Although the Vigilant won the race, it is a growing opinion that the American Cup Committee is satisfied that no formal trial race will be necessary, because the sailing of the Defender today was good enough to evidence her continuous improvement, and that is all that is wanted in the way of information.

The Jubilee and Volunteer, which also started today, were never in the hunt with the Defender and Vigilant; although the Jubilee did make batter time than the Vigilant in the eighteen miles' run in the wind from Block Island to the flagship.

# LENZ LEGALLY DEAD.

The Bicyclist's Will Filed for Pro bate-His Murderers. (REGULAR ASSOCIATED PRESS REPORT.)

PITTSBURGH, Aug. 2.—Frank G. Lenz, the missing bicyclist, is legally dead, and his will, in which he leaves all his property to his mother, has been filed for probate. Satisfactory evidence of his death has been furnished to Register Connors. The will is dated May 8, 1892, the day before he started to Washington to secure his papers for his trip around the world, and names his mother, Maria Ana Leng, and Austrian Vice-Consul Schneider as execu-

tors, to whom letters were issued.

Through the efforts of the British
Vice-Consul at Erzeroum it is definitely known that Lenz was murdered on May 10, 1894, while riding between the villages of Kuritali and Dahan, near Erzeroum. The men who murdered him are known as Rizgo and his brother, two sons of Khatto and two sons of Abduralian, six in all. At the demand of the British Vice-Consul the six men have been arrested, and will be tried for murder. known that Lenz was murdered on Ma

# BRITISH ATHLETES.

The London Club's List for the Com ing International Games.

GULAR ASSOCIATED PRESS REPORT.)

NEW YORK, Aug. 2.-A letter dated lly 15 has just been received from occetary Gulick of the New York Athletic Club from S. K. Holman of the London Athletic Club in which a list is submitted of the men eligible to be members of the British organization's teams in the coming international games. The names of the Britishers are Downer, Brady, Fitzherbert, Oven-den, Horan, Bacon, Luytens, Murroe, Horgan, Barry, Williams, Ryan, Oakley,

Fry and Shaw. Holman gives the date of the election Holman gives the date of the election of each man named and asks what steps have been taken to strengthen the ranks of the New York Athletic Club for the competition. He suggests that the list be closed soon and asks whether the recent addition of Fitzherbert, Ryan and Horgan comes within the scope of the terms agreed upon. The New York Athletic Club's committee will meet next week and frame a reply.

# THE BAY DISTRICT PROJECT.

Tom Williams Secures Backing Sufficient for the Enterprise.
(REGULAR ASSOCIATED PRESS REPORT.)

SAN FRANCISCO, Aug. 2.-Thomas H. Williams has returned from the East, and says he has obtained the support necessary to the purchase of the land on which the Bay District track is located.
"We have an option on it for sixty

"We have an option on it for sixty days," remarked Williams today, "which will give up plenty of time in which to conclude the arrangements. The price to be paid is \$650,000. While I was East I saw Pierre Lorillard, J. B. Haggin, ex-Mayor Nolan of Albany, N. Y., Dave Gideon and Phil Dwyer, and canvassed the subject with them. As a result, they have all argeed to stand in, and the negotiations will be concluded within a few weeks."

Williams denies the rumor of a truce with Ed Corrigan, who is at the head of a project to establish a sival race-course here. He says that October will see all the best stables of the country represented at the Bay District track.

# THE BLOOMER CRAZE.

A Bifurcated Hop with All the Symptoms of Wheels.

GEGULAR ASSOCIATED PRESS REPORT.

SAN FRANCISCO, Aug. 2.—The
"bloomer ball" craze has caught San
Francisco and functions of the kind
are now scheduled to take place nearly ven last night by the South Side coing Club. They had to knock the rittion out of the cyclery on Howard need to make room for the bloomers, dige Campbell was there, and, aftering an interested spectator for a few inutes, he left he official dignity in a cleak-room and rushed madly into a mass of the modern dance. With an expert by his side the learned riet scanned the flapping, glittering rong until he found a bloomer girl at suited his fancy. Then his Honor need the hours away. She had a large as the belle of the ball. The

regulations called for bicycle clothes. Emough of the other members observed the order, however, to pair off with the bloomer ladies and thus lend proper eclat to the affair.

It was just like a regular function, except for the symptom of wheels which prevailed everywhere. Half the young men rode their bicycles to the dance and scorched over the ballroom floor while waiting for the band to play. Now and then a new woman essayed to show her skirted sister just how the thing is done, but usually ended by bumping into a post or running down the rattled spectators. What with posts, bicycles, populace and bloomers, the cyclery was somewhat crowded, but the undoubted success of the first social more than made up for lack of room.

# PRIDE OF THE NAVY

CRUISER COLUMBIA'S WONDER FUL OCEAN RUN.

Beats the New York's Best Time Across the Atlantic by Fortyeight Hours.

Faster Than Anything Affont Except the Minneapolis.

A Telegram of Congratulations is Sent to Capt. Sumner — Some Surprise That no Forced Run Was Made.

REGULAR ASSOCIATED PRESS REPORT. NEW YORK, Aug. 2,-The United States cruiser Columbia was sighted from Sandy Hook at 9:30 o'clock this morning. The Columbia sailed from Southampton at 12:30 o'clock Friday afternoon, July 26. Her time from the Needles to Sandy Hook bar is 7 days 1 hour 15 minutes; average speed, about 18.17 knots. The Columbia's best time is 22.8 knots per hour, made on her official trial trip. The Southampton record is held by the American Liner New York, 6 days 7 hours 14 minutes. LATER:—The Columbia reached Quarantine at 10:35 o'clock. Her log gives from the Needles to Sandy Hook lightship. 6 days 23 hours 49 minutes; total distance, 3109 knots; average speed, 18.41 knots.

During the entire passage the cruser was run under natural draught, Twenty-six hours of fog was experienced on the voyage, during which the cruiser steamed at her usual speed. Moderate winds and weather were encountered all the way across the ocean. At Quarantine the Columbia was boarded by the Health Officer and, the surgeon reporting all well, the cruiser proceeded up the bay.

To an Associated Press reporter, who boarded the cruiser when she came to anchor in North River, Capt. Sumner said that he was very much pleased with the vessel's behavior on her transatlantic speed-test, and that the time occupied in crossing from the Needles to Sandy Hook was 6 days 23 hours 49 minutes.

Capt. Summer said: "The run was Southampton at 12:30 o'clock Friday afternoon, July 26. Her time from the

Capt. Sumner said: "The run was Capt. Sumner said: "The run was a very successful one, all things considered. We left the Needles at 7 o'clock a week ago today, and throughout the trip we only used natural draught. Once in heavy weather we slowed down for four hours to a speed of 8 knots. We encountered a fog which lasted twenty-six hours, but we ran full speed through it. We worked our three screws and the eight main boilers were all working, and our coal consumption averaged from 200 to 230 tons per day. We had the best coal that we could get, and it is the same as that used on the American Line steamships. Had we been able to run nunder forced draught for twenty-four hours we most certainly would have

under forced draught for twenty-four hours we most certainly would have done three hours better.

"However, I am satisfied that the cruiser has proven her capacity of making extraordinary runs when necessary. The full complement of the fire-room is 196 men, but we were twelve short of that number. To make up this cheficiency we secured a dozen volunteers from the deck. We had some bed weather, and as you can see by our

ward of the pilot-house."

When asked about injury to the ship's pilates while on the drydook on the other side, the captain passed the matter off, saying: "Oh, that was nothing of any consequence. The ship is all right, as you can readily see from the trip just finished."

The eight main boilers and three main engines were used. On account of the injuries sustained by the Columbia when she was docked in Southampton the steam pressure was limited to 140 pounds. The coal allowance was set at 200 tons a day. At 12:10 'clock Saturday a tube blew out in one of the boilers. An attempt was made to stop the leak in the usual manner, with a wooden plug, but the pressure was so great that the plug would not stay in place. At 1:30 o'clock the first were therefore hauled from the boiler, its safety-yalves opened and the boilers shut off' from the steam-pipe. The effect on the ship of thus losing one boiler was marked. The revolutions fell from 106 to ninety-four per minute and the speed from 19.6 to 16.88 knots. The break was repaired at 6:45 o'clock. For the succeeding four hours the average revolutions increased to 104 per minute and the speed to 18.75 knots. This was the only serious trouble caused by the leak in the tubes. Two others blew out, but were plugged without ruch trouble.

This was the only serious trouble-caused by the leak in the tubes. Two others blew out, but were plugged without r uch trcuble.

While the instructions from the Navy Department were to run the Columbia under forced draught on the last day, Capt. Sumner was unable to comply with that order for the reason that it was impossible to pass the coal from the wing passages into the bunkers fast enough. Only one man could work at a time in a wing passage, and coal had to be trolleyed from there to the bunkers.

THE NAVY DEPARTMENT RE-JOICES.

WASHINGTON, Aug. 2.-There was general rejoicing in the Navy Depart-ment today when the Associated Press

washington, Aug. 2.—There was general rejoicing in the Navy Department today when the Associated Press bulletin was read announcing the arrival of the Columbia off Sandy Hook. Assistant Secretary McAdoo expressed the greatest pleasure over the fast time made by the cruiser. He went to the West Indies abdard the Columbia and was confident from the start that she would acquit herself handsomely on this trip across the Atlantic.

The Columbia beat the time of the New York by two days and previous to this trip the New York had the best record of any warship crossing the Atlantic. Mr. McAdoo said today there was no longer any doubt about the speed of the Columbia, and that she no doubt could overtake any vessel afloat on a spurt; that is, if a vessel was sighted in the morning the Columbia could come up with her before night. The Minneapolis is her equal if not superior and the record of the Columbia shows that the United States has the two fastest ships afloat.

A prominent naval officer pointed out what he called the most gratifying point concerning this speed trial. He said that when all the conditions under which the Columbia made her run are considered the results must be regarded as remarkable. In the first place, he said, the coal, while good and probably much better than the cheap variety usually supplied our vessels at home, was not the very best quality of Welsh coal. Then, again, the engine departments of our cruisers are not asfully manned as either ships of the merchant service or as those of foreign governments, and consequently the endurance of the men in the engine and fire rooms is more severely taxed. As an illustration of this fact, it is only necessary to give the following comparison-between the Columbia and the Engilsh cruiser Terrible: Columbia, horsepower, 20,000; number of engineers, four; men in engine department, 196; Terrible: horsepower, 20,000; number of engineers, four; men in engine department, 196; Terrible: horsepower, 20,000; number of engineers, four; men in engine department, 196

they do not carry the coal, but because they have not the power. The Navy Department, however, has the report of a twenty-four-hour trial of the English cruiser, Royal Arthur, made in the Pacific some months ago, and her maximum speed for four hours was only 18 knots, while for the twenty-four hours' of the trial it was only 18,5 knots. This vessel is officially rated as the same displacement as the Columbia. Of the other fast British cruisers none of them has done anything at all comparable with the trip of the Columbia. In fact, the cruiser Blenheim, on which the British plume themselves, made only a maximum of 14 knots when returning from Halifax after having carried the body of Sir John Thompson there for interment.

The official notice of the Columbia's

oody of Sir John Thompson there for interment.

The official notice of the Columbia's remarkable performance reached, the Navy Department in the following telegram from the captain!

NEW YORK, Aug. 2, 1895.

To the Secretary of the Navy, Washington: Columbia-Needles, 2 p.m., 26th ult.; Sandy Hook lightship, 8:59 today. Average hourly speed for whole run, 184 knots. Whole run under natural draught. Twenty-six hours of fog, but no delay therefrom.

(Signed)

SUMNER.

In reply Mr. McAdoo sent Capt. Sumner the following message:

WASHINGTON, Aug. 2.

To Sumner, U.S.S. Columbia, care of commandant Navy-yard, Brooklyn: The department tenders to you, officers and men of the Columbia, its congratulations on the result of the run from the Needles to Sandy Hook lightship, thus making an unexampled record for a warship. (Signed)

Acting Secretary.

The department was surprised to find that Capt. Sumner did not make an effort to run the ship under forced draught for the last twenty-four hours of the trip. He was especially instructed to do this. When the Columbia was ready to leave Southampton she had in her bunkers and stowed elsewhere on board 1917 tons and 641 tons of Welsh bituminous coal, the same as is used by the American Line steamships on their westward voyages. This was more coal than any vessel of the United States navy ever had carried. It is possible Capt. Sumner will be called on to explain why he falled to obey instructions to that effect, although it is assumed that the lack of coal will account for the omission.

# MUST SUFFER DEATH.

THE TAYLOR BROTHERS GUILTY

in the Courtroom Indulge in Wild Cheering Until Thraten by the Judge with Arrest-One of the Convicted Men Displays

GIII.AR ASSOCIATED PRESS REPORT.) he jury, find the defendants, William P. and George Taylor, guilty of murder in the first degree."

Such was the verdict rendered at 2:20 clock this afternoon in the notorious

o'clock this afternoon in the notorious Meeks murder trial. It took but one ballot to decide that the Taylor brothers were guilty of the helnous crime charged against them, and that the penalty for the butchery of Meeks, his wife and two children on Jenkins Hill on the night of May 10 last, should be set at the limit.

The jury went out sharply at noon, and when it returned two hours and twenty minutes later and returned its verdict, there was no doubt as to the spectators approval of it. In an instant nearly one thousand people who crowded the courtroom broke forth in a volley of cheers that were only silenced by threats of arrest made by Judge Rucker. Sentence will be deferred for the present.

Rucker that the members had agreed upon a verdict.

At 2:35 o'clock the Taylors were brought into court. George had not lost nis color, but William was as pale as leath. The clerk called the jury and read the verdict. The crowd began to applaud vigorously, and Bill Taylor half rose in his seat with a look of terror in his eyes that was pitiful. The judge and sheriff rapped for order, but still the crowd applauded like a mob at a Roman circus, the judge rising in his a Roman circus, the judge rising in his bench shouted: "Sheriff, arrest any man that applauds."
The defense will file a motion for a new trial, but it is not believed it will be granted.

# EDITOR ASSASSINATED.

the Attorney-General Signs the Commissions.

Citisens' Volunteer Association of One Hundred Men Has Been Organised.

Ill Members of the Old Fire an Police Departments Refuse to Acknowledge the Appointees of Turn Over Property.

(REGULAR ASSOCIATED PRESS REPORT.) OMAHA (Neb.,) Aug. 2.—Three Police Commissioners acting under the A.P.A. police law, are doing business in Omaha tonight, regardless of the fact that the cil from approving their bonds. The Council has a working majority, and sult a citizens' volunteer guard of 100 men is on duty at the police station to night to maintain peace and assist the

night to maintain peace and assist the regular police force in holding possession of the city property.

Broatch, Vandervort and Foster were given their certificates as police commissioners at noon by the Attorney-General and Public Inspector of Lands and Buildings. The Governor refuses to sit with them, and warned them that their course was illegal. The Omaha Council prepared a special session at 4:30 o'clock to approve the bonds, but were met with an injunction returnable tomorrow in the District Court. The order was ignored with a hurrah, and the new police commissioners at once ap-

tomorrow in the District Court. The order was ignored with a hurrah, and the new police commissioners at once appointed a full police force. They will make no effort to get possession of the city property before morning. At an early hour tomorrow the District Court will take up the matter of the Council proceedings in contempt, and will probably annul its work. There is much inflammatory talk, and several companies of militia in different parts of the State have been notified to be in readiness to move on Omaha in the event of trouble. Gov. Molcomb is prepared to maintain the law and is tonight using all means in his power to conserve the peace and have the whole squabble carried to the Supreme Court. When asked what action he proposed to take in the matter in case of any attempt to take forcible possession of the jail, Chief of Police White said tonight that he would see that there was no rioting and that the laws were inforced in any event. He said he did not anticipate any violence but would be prepared to deal with any cases of lawlessness that might come up. It was evident from the first that it was the intention of the A.P.A. majority on the City Council to carry out their plans irrespective of the order of Judge Hopewell.

President Edwards refused to receive

jority on the City Council to carry out their plans irrespective of the order of Judge Hopewell.

President Edwards refused to receive the telegram from the District Judge who is at Tekamah, which was handed to him and this example was followed by the majority. It appeared that one or two of the members who were ready to vote for any measure that would aid the A.P.A. in their plans were a little doubtful as to the propriety of a direct violation of the order of injunction. Subsequently the majority took possession of the private office of the president where the doubtful votes were looked after until ten members were ready to defy the court. The majority called for an opinion from the city attorney as to whether the Council was bound to obey the injunction.

City Attorney Connell is out of the city, and left Frank Banson to advise the Council in his absence. He advised the Council that it might with entire propriety ignore the injunction. He declared that since the order had been

the Council that it might with entire propriety ignore the injunction. He declared that since the order had been issued at Tekamah, the injunction was not in force in this county. More than this, he was informed that no petition had been filed in the District Court, and that no bond had been approved by the clerk of the court. Until this was done the injunction was not inforce, and the Council was under no obligations to consider it. President Edwards then declared the bonds of the new commission approved. During the argument for the defense, and pleaded for mercy for his clients on behalf of their families.

Prosecutor T. M. Bresnehan, who closed for the State, made a terrible arraignment of the prisoners.

"I will show you," he said, "beyond a reasonable doubt, by a chain of circumstantial evidence, in which there is not a link missing, that the Taylor brothers murdered Gus Meeks and his family on Jenkins Hill. It was butchery—it were flattery to call it simply murder. I will show that these men, William and George Taylor, are the butcherers of the Meeks family, and I demand their punishment."

Sharply at noon the jury was locked in the courtroom to deliberate, and at 2:20 o'clock word was sent to Judge Rucker that the members had agreed upon a verdict.

Taylor brother the injunction was not in force in this county. More than their punishment."

Sharply at noon the jury was locked in the courtroom to deliberate, and at 2:20 o'clock word was sent to Judge Rucker that the members had agreed upon a verdict.

It was not neces-sary that the Governor should issue any commission nor was it even necessary that it should bear the seal of the

State.
The Council then adopted a resolu-

The Council then adopted a resolution, giving full recognition to W. J. Broatch, A. C. Foster and Paul Vandervort, the appointees of the new board, and requiring that they should be recognized by all officers and employees and others having business with the city.

At noon Gov. Holcomb sent a letter to the Attorney-General, urging him to begin quo warranto proceedings in the Supreme Court at the earliest possible date, in order to try the title to the respective claimants to the office, and directing him, by proper proceedings, to restrain any effort which may be made to take possession of the commissioners' office by, force, surreptitiously or in any other unlawful manner. He promises to render all the aid in his power.

At 11 o'clock tonight the District Court issued a second injunction, restraining the new Police Commissioners from interfering with the old force or any municipal property, or from acting in any capacity. The case will be heard at noon tomorrow. The new commission has not yet indicated its action on this injunction.

# ALTGELD'S WISHES.

They Are Ignored by the Legislature in Special Session.

SPRINGFIELD (III.) Aug. 2.—The special session of the Illinois Legislature called by Gov. Altgeld adjourned today, having enacted hardly any of the supercurs statutes desired by him average and the session of the sessio

numerous statutes desired by him except the Arbitration Bill. The House cept the Arbitration Bill. The House adopted resolutions caustically arraigning the Governor as insincere.

Gov. Altgeld today appointed the following as the first State Board of Arbitration to serve for one, two and three years respectively: William P. Rend of Chicago an employer of labor, Charles J. Riffler of this city, State president of the United Labor organization, and Judge Anthony Thornton of Shejbyville. The appointments were confirmed.

## ARKANSAS RAIN. and Watercourses Aroun

FORT SMITH (Ark.,) Aug. 2.—Six nches of rain in twenty-four hours is

the record reported by the Signal Service officer stationed here. Enough water has fallen during that time to overter has fallen during that time to over-flow every creek and watercourse within 100 miles of Fort Smith. Yes-terday the river was rising at the rate of one foot per hour, but it is gradually receding and the danger of a flood has passed for the present. The valley road is a heavy sufferer by the wrecks and washouts. A bridge near Braggs Sta-tion as badly damaged by the torrent of water and all freight trains have been abandoned and passenger trains are compelled to transfer.

THE DAMAGE OVERESTIMATED. FLORENCE (Colo...) Aug. 2.—President Johnson has returned from a trip over the line of the Florence and Cripple-creek Railroad with Contractor J. B. Orman. They state the damage is not as great as reported, and cling to the belief that they can have the road ready to resume traffic in about ten days.

## THAT'S THE BUSINESS. The Administration Gets "a M

on" in Waller's Case. (REGULAR ASSOCIATED PRESS REPORT.) WASHINGTON, Aug. 2.-Failing to receive any assurance of progress from Ambassador Eustis in the Waller case, Acting Secretary of State Adee has again cabled him to press the request for the record of Waller's trial at Mad-agascar, and has instructed him at some length as to the position which

he should take in presenting it.

It is understood that Mr. Eustis It is understood that Mr. Eustis has been instructed to say to the French authorities that nothing less than the inspection of the complete papers in the case will be sufficient to satisfy the United States whether justice has been done, and that a final refusal to furnish a complete transcript will be accepted by this government as a denial of justice.

# A QUEER CHARACTER

ALEXANDER SOLER'S WILL IS

The Spanish Courts Will Not Give Regent

omething About the Natural Son of a Former King of

Found on the Doorstep of an Old Duke Who Was About to be Mar-ried—How the Secret of His Birth Became Known.

(BY TELEGRAPH TO THE TIMES.) MADRID, Aug. 2.—(Special Dispatch.) The courts have declared void the will of Alexander Soler, who bequeathed several millions of pesetas to Queen Regent Christiana, The decision s based upon the technical flaw.

Alexander Soler, who died in Madrid last May, was the natural son of King Ferdinand V of Spain. His mother was a Spanish duchess, whose name is not known outside of the court circle in the Spanish capital. He had a more varied life than most natural sons of royal parents. At the age of 3 months he was found in a basket at the door of a middle-aged duke, who was about to be married. The young woman who was to be the duke's bride thought the out, and refused at first to marry him unless he would put away the foundunless he would put away the foundling. Eventually, however, she was
persuaded to become the child's
adopted mother. The couple spent
thousands of francs to ascertain the
truth regarding the parentage of the
adopted son. The boy was taken out
by a servant daily, and shown conspleuously in the parks, until one day
a little girl ran up to him, and, squeezing him heartily, called him brother.
The little girl was servant to the midwife who had cared for the baby, and
the midwife directed the couple to the

the midwife directed the couple to the physician who had cared for the mother. From the physician the whole story of Soler's birth was obtained. Soler was educated highly in arts and sciences. His secret was an open one and he was received in society just outside of the court circles. When the Duke and Duchess died he was found to be heir to their property. The Duke's family, however, contested

Soler retired from the legal struggle almost as soon as it began. He said he could earn his own living. He went to Paris, entered commercial life and, after five years of phenomenal business successes, he returned to Madrid, a millionaire several times over. He had ost taste for society, however, and retired to a secluded palace, where he could pass most of his time in the studies of his youth. He did not marry, and his only close friend was the Queen

regent.
Once a month during the season l dined with her at the Royal Palace. From her he learned who his mother was. He went to the old duebess found, her almost impoverished, and settled upon her a pension of f.50,000 a year. It may have been the vagaries of her youth or neglect to seek him in his less other things that prejudiced his eccen other things that prejudiced his eccentric mind against her. At all events, he called upon her but three times, and finally when she lay on her deathbed. The bulk of his fortune he left to the one friend of his old age, the Queen

SALEM WANTS THE TALK. SALEM WANTS THE TALK.

SALEM (Or.,) Aug. 2.—Upon receipt of news that ex-Congressman Horr and Congressman Bryan were to debate on the financial question, the Oregon State Fair manager began arrangements for having the debate held at the State Fair in September. Bryan has already accepted the invitation and will be here. Horr has been invited. It's proposed to have a debate over five days. Governors Budd, McConnell and McGraw will be invited to act as referees.

A dispatch from Persy, Okia, says a strong effort is being made by local sporting men who believe that the Corbett-Fitssimmons fight, billed for Dallas, Tex., will be prevented by the authorities, to have the fight come of at Perry. Under the territorial laws prize-fighting is only a misdemeanor and authorities of the Territory views such matters in so liberal a light the it is not probable that any process tions would take place if the fight comes on there.

# COAST RECORD. WHITEMAN'S APPEAL

BEGS TO BE NOT BRANDED AS A CRIMINAL.

The Ex-Millionaire Banker of Duluth Asks Judge Wallace for a New Trial.

He Claims to Have Found the Mar Dixon Whose Name Appeared on an Alleged Forged Check.

Sacramento Valley Press League State Boards Meet at the Capi-tal-Gov. Budd and Saloons— A Technical Murder.

REGULAR ASSOCIATED PRESS REPORT.) SAN FRANCISCO, Aug. 2.—A. J. Whiteman, the ex-hanker and million aire of Duluth, Minn., ex-Mayor of Duluth, ex-member of the Minnesota Legislature, and recently convicted of forgery, made a personal address today in the Superior Court in support of his wn motion for a new trial.

The new trial was demanded on the One charge against Whiteman was that he had victimized several friends in San Francisco by means of a forged in San Francisco by means of a forged check drawn by Frank Dixon upon a New York bank. All through the trial Whiteman insisted that there was such a person as Dixon, although he could not be found. Now it is stated that Dixon has been found, and has stated in the presence of certain reputable residents of Chicago that he had really signed the \$500 check and had sent it to Whiteman in payment of an indebtedness. Then Whiteman, by permission of the court, made an eloquent address, reciting his social and political prominence and his efforts to find Dixon. He begged the court not to put the brand of felon upon a man who had not been legally convicted of a crime.

crime.

Judge Wallace continued the further hearing of the motion for two weeks, instructing the special counsel for the prosecution, meantime, to ascertain whether or not Whiteman's story is true. The court stated that if there is really such a person as Dixon, and if he signed that check and sent it to the defendant, Whiteman would have a new trial.

# LIQUOR LAW VIOLATIONS.

Gov. Budd Will Enforce the Two-mile Limit. (REGULAR ASSOCIATED PRESS REPORT.) Budd visited the State prison at San the reason why the State law had been violated in the matter of the mainte nance of liquor saloons with two miles of the prison. All that he could learn was that the law and police authorities of the county had failed to do their duty. The Governor has directed Atty.-Gen. Fitzgerald to enforce the law in this record.

Atty.-Gen. Fitzgerald to enforce the law in this regard.
"If they cannot be convicted," said the Governor to a Bee reporter, "the saloon men can be enjoined from vio-lating the law, and if they disobeyed the injunction they can be punished for

Sontempt of court."

When a reporter called upon the Attorney-General today the latter said he torney-General today the latter said he had not received a communication from the Governor regarding the matter, but supposed it would be along within a day or two. He said he would look up the law and file an opinion with the Governor. "It applies," remarked the Attorney-General, "to the State University. A branch of that institution is in San Francisco. If it is enforced the metropolis will be a dry town."

# ARTFUL DODGERS.

Peculiar Tactics Adopted by the Counsel for Defense.
(REGULAR ASSOCIATED PRESS REPORT.)

SAN FRANCISCO, Aug. 2.-It is said that the counsel for Theodore Dur-rant, charged with the Emanuel-church nurders, will attempt to prove an alibi for Durrant by the testimony of mem-bers of his family and his friends, but it has not been determined as yet whether to put the defendant on the

Attorneys Deuprey and Dickinson will be guided in the defense greatly by the showing made by the prosecution. If the people present a strong case of circumstated tion. If the people present a strong case of circumstantial evidence, and the witnesses for the State remain firm under the fire of cross-examination, a strenuous effort will be made to create a doubt in the minds of the jurymen by throwing an unknown party into the case, who will resemble Durrant to such an extent as to permit a mistake in identification. That such a course is being considered is evident by the story told by Clark, before he was tripped up by his wife and mother.

It is thought the best the defense expects is a disagreement of the jury, which, in the end, it is thought, will be equivalent to a dismissal, as it is seldom, if ever, a man is convicted on a second trial after a disagreement in a first.

# SOME STORIES.

SAN FRANCISCO, Aug. 2.-The prosecutors of Theodore Durrant are mistaken if they think that the attor-

prosecutors of Theodore Durrant are mistaken if they think that the attorneys for the defense have abandoned Charles H. Clark as a witness. On the contrary, the interrogatories to be put to Clark have been forward to Boston, and if Eugene Deuprey is sincere in what he says he expects Clark to stick to his original statement that he saw Blanche Lamont with a man other than Durrant on a Powell-street car on April 3.

The defense thinks that Mrs. Clark was persuaded to make the statement she gave on Thursday through the hope that it would take her husband out of the case and prevent the publication of Clark's Oregon record, which is supposed to be in the possession of the prosecution. They also think that Mrs. Clark has no letter from her husband in which he admits that he was mistaken as to the date on which he saw Miss Lamont with the unknown man on the car. Deuprey is authority for the statement that Detective Harry Moore, who is in the employ of the defense, has telegrams from Clark dated later than Mrs. Clark's alleged letter, and that the telegrams declare that he is ready to reiterate the statement he made originally.

The story printed yesterday that a

made originally.

The story printed yesterday that a woman visiting Durrant's house on the night Minnie Williams was murdered heard Durrant burning cloth is repudiated by both the prosecution and the defense. District Attorney Barnes says he never heard of the woman.

# A TECHNICAL MURDER.

Chinese Gardener Driven into a River is Drowned.

GEGULAR ASSOLATED PRESS REPORT.)

TOCKTON, Aug. 2.—Coroner Clark wen down the river tonight to hold an inque, on the remains of a Chinaman that we found floating near Bouldin Island. After he had left a story came which show that the remains may be those of a han who was technically murdered less Sunday, several miles from Bouldin in Georgians Slough. There was a fight among Chinese gardeners there and up of them drew a lastel and object acoustic into the was

ter. The latter got beyond his depth and was drowned.

The slough has been dragged for his remains, but they have not been found and it is thought that the body found near Bouldin is that of the man who was driven to his death.

## SOUTHERN CALIFORNIA OIL

It is to be Taken to San Francisc for Fuel.

TREGULAR ASSOCIATED PRESS REPORT.)
SAN FRANCISCO, Aug. 2.—It is proosed to bring the surplus product of San Francisco for use as fuel. The men who are behind the project declare there is nothing visionary about it and have already contracted with Goodall, Perkins & Co. for the transportation of the oil in its crude state. It is deemed advisable to construct tank ships in or-der to transport the fuel at the least possible cost

advisable to construct tank ships in order to transport the fuel at the least possible cost.

It was the opinion of the gentlemen present at the important preliminary conference in the offices of the Pacific Coast Steamship Company today that the introduction of the product here in commercial quantities would sound the death knell of the coal-importing business. Incidentally that would mean a serious injury to the shipping business of the port.

At the conference today were Herron, Burns and Flint, representing the Oil Exchange of Los Angeles; Senator Perkins and Capt. Minor Goodall, representing the steamship company. It was a business discussion strictly, but had not gone far until it was plain that oil could be brought from Southern California and sold in San Francisco at prices away under the price demanded for the cheapest coal that can be used under a furnace. It is not unlikely that the result of this first conference will be the organization of a crude-oil transportation company in which Goodall, Perkins & Co. will have a large interest and the management.

The Sacramento Valley Press League

Just a-Humpin' Itself, (REGULAR ASSOCIATED PRESS REPORT.) SACRAMENTO, Aug. 2.—The Execuive Committee of the Sacramento Valcity this afternoon at which were present Raleigh Barcar, chairman; W. R. Ellis, Woodland; C. K. McClatchey,

ent Raleigh Barcar, chairman; W. R. Ellis, Woodland; C. K. McClatchey, Bee; E. B. Willis, Record, Union; W. D. Pennycock, Vallejo, and D. G. Holt, Rio Vista, secretary.

The committee adopted a large number of resolutions intended to benefit the Sacramento Valley. It was recommended that illustrated pamphlets be published, setting forth descriptions of the valley and inviting immigration. Another resolution urged the papers of the valley to battle for a constitutional amendment so that all persons who hold over 1000 acres of land shall be assessed in an increasing ratio for every 500 acres over that number, to the end that land monopoly may be the more speedily broken up. Fruit-growers were urged to send out printed matter descriptive of the valley in each package of fruit sent East.

The league urged the constant battle for the preservation and improvement of the Sacramento River. It also urged the immediate inauguration and rapid spreading of a good-roads system all through the valley. A better Legislative system was also urged. It was also urged that a distinctive Sacramento Valley exhibit be made at the Atlanta Exposition. It was also urged that smelting works be established in Shasta county to reduce the ores of that county. It was recommended that the Southern Pacific Company lay out a beautiful park at its depot in this city to attract the attention of visitors from the East.

# A THUNDERBOLT'S WORK.

An Easterner Killed and Two Other Rendered Unconscious,

FLAGSTAFF (Ariz.) Aug. 2.—Yesterday morning at the Grand Canyon of the Colorado, Blatchley and Lewis Porter and Arthur S. Renton, visitors from Stanford, Ct., left the Tolfree Hotel to visit Bissell Point. On their return a ock. A thunderbolt struck the rock

rock. A thunderbolt struck the rock and Blatchley Porter was instantly killed. Lewis Porter and Arthur Renton were thrown from under the rock and rendered unconscious.

Renton was the first to recover and thinks that he was unconscious for half an hour. He found Blatchley Porter dead sind Lewis unconscious. He started for the hotel, some three miles, for aid. Meantime Lewis Porter recovered and, being dazed, lost his way and did not reach the hotel until 3 o'clock. He was badly burned on the shoulders and back; his hair was singed and clothing burned in several places, and is prostrated from the shock. Renton is severely bruised. The dead man was a Yale student and was on a vacation trip.

# HIGHWAYS AND PRISONS.

Two State Boards Hold a Meeting

at Sacramento.

(REGULAR ASSOCIATED PRESS REPORT.)

SACRAMENTO, Aug. 2.—The Bureau of Highway Commissioners and the State Board of Prison Directors held a meeting today in the Governor's office. Commissioner Maude reported the condition of the surveys for the rock-crushing plant at Folsom and announced that the drawings, etc., would be completed by tomorrow morning. Next Wednesday both boards will meet at Folsom to discuss the general plan. The bureau expects to be ready to deliver crushed rock in this city within ninety days at 67½ cents per cubic yard, delivered on the cars here. The present price of crushed rock is \$2.95 per cubic yard. of Highway Commissioners and the

# FOUND IN A HOLE.

Dead Body of an Unknown White Man Discovered.

Man Discovered.

FLAGSTAFF (Ariz.) Aug. 2.—On
Monday the dead body of a white man
was found on the Little Colorado
River, forty miles northeast of here,
by three cattlemen. The Sheriff and
Coroner visited the scene and returned Coroner visited the scene and returned today. They believe that the man was murdered as the body was pushed in a hole four feet long and the same depth. The back part of the head was crushed with an ax or club.

The murdered man is unknown here. He was about six feet tall, well built, and had on a shirt, cotton pants and heavy shoes, and was about 50 years old. Nothing was found that could lead to his indentification.

A Columbia-river Raft. A Columbia-rivet Raft.

SAN FRANCISCO, Aug. 2.—The steamer Mineola, belonging to the Southern Pacific Company, ame in through the Golden Gate last night, having in tow a raft built on the Columbia River, and containing between six million and seven million feet of lumber. The raft is made of piles, so closely bound together that not a single timber moves. There are 450,000 running feet of these piles. It would have taken scores of ships to bring the lumber here, and the freight bill. figured at the usual rates, would have been \$25,000.

Fatal Inquisitiveness.

SACRAMENTO, Aug. 2.—William T.
Groves, the fourteen-year-old son of Mr. and Mrs. George Groves, died to-night from accidental poisoning. The boy had started to irrigate the garden,

and took from the house an old sprink-ling pot. In the pot was a bottle of strychnine, and the boy drank a quan-tity of it, as he explained afterward, "to see what it was." Two physicians were called in, but too late to save the boy's

## STARVED TO DEATH.

Fate of an Informer's Wife-Afraid

to Go Home.
(REGULAR ASSOCIATED PRESS REPORT.)
SELMAR (Tenn.,) Aug. 2.—A man SELMAR (Tenn..) Aug. 2.—A man named Cook belonged to the gang of moonshiners who killed Deputy United States Marshal Garner during a raid in Hardin county in 1893. Cook afterward turned State's evidence, while in iail, and conducted another raid as guide, in which several moonshiners were captured. His wife moved near this place while Cook was in jail. He was afterward released, but, being afraid to return to his former home, lived with his wife here in most destitute circumstances.

It is learned that she has died of starvation, and the remains were kept in the house some days before neighbors discovered the situation. A coffin and clothing were furnished by neighbors and the body interred.

# A VERY LIVELY CORPSE

Surville Was Not Clubbed to Death by a Policeman.

evening paper yesterday pub lished the startling information Insaed the starting information that F. B. Desouville, who was clubbed over the head by Officer Blackman, July 19, while resisting arrest for disturbing a religious meeting, had since died from the effects of his wounds. This would be sensational news, indeed, if true, and would place Officer Blackman, if there were a policeman by that name, in a very unenviable position.

Reference was, perhaps, had to F. le Brun de Surville, who was clubbed by Officer Blackburn on the date named. De Surville has some scars to show as the result of that beating, but when seen by a Times reporter at the National Hotel last night, he appeared to be a very lively corpse. In fact, Monsieur de Surville assured the scribe that he had no notion of dying before Justice Owens renders a decision in his case. He has a burning curiosity to learn whether he is guilty of the crime of disturbing a religious meeting or not, before he goes to render his final account before the Judge of all the world. Furthermore, before he starts for that bourne where no brutal policemen beat tatoos on the heads of inoffensive citizens, he will give due notice to his friends.

Incidentally, it may be mentioned that De Surville, who is an ex-captain of the Chasseurs d'Afrique, and has the military medal and decoration of the Legion of Honor for wounds received in battle, and gallant service in the field, but was reared in Los Angeles and is proud of his American citizenship, feels that he has been badly treated by the policeman. His arrest on the charge of disturbing a religious meeting, he claims, was unwarranted. His trial was concluded several days ago, and Justice Owens took the case under advisement. Reference was, perhaps, had to F.

An Alleged Shooting Scrape. There was a story affoat yesterday about a shooting scrape alleged to have occurred at Naud's Junction yesterday occurred at Naud's Junction yesterday morning. The report was that an eloping couple—a man and another man's wife—were about to board the east-bound passenger train on the Sunset route, when the husband of the woman appeared and fired a shot at them just as they stepped on the platform of the car. His aim evidently was bad, for the couple quickly disappeared through the door of the car, and the train pulled out. The shooter then put his pistol in his pocket and walked hurriedly away. The story could not be verified, the police and railroad men professing entire ignorance in regard to the matter.

An Associated Press dispatch from an Jose says that Otto Peterson, alias San Jose says that Otto Peterson, al'as Henry Bonnell, appeared in court yesterday afternoon, on habeas corpus proceedings. His claim was that, as he had never gone under the name of Henry Bonnell, he was illegally detained. The writ was denied. Immediately afterward his examination was held, and, as none of the witnesses who had been victimized by the passage of bogus checks could identify him, he was discharged. Peterson will return to Los Angeles. Peterson was employed as a salesman in the Chicago Clothing Store when arrested.

# MANITOBA'S DILEMMA.

The Governor May Dismiss Premier Greenway Unless He Yields. (REGULAR ASSOCIATED PRESS REPORT.) MINNEAPOLIS (Minn.,) Aug. 2.—A special to the Tribune from Winnipes says that Sir John Schultze, Governor of Manitoba, has transmitted to Pre-mier George Greenway a communication from the Dominion government

mier George Greenway a communication from the Dominion government,
asking Greenway to state just how far
he will go in compromising the Catholic school difficulty. Sir John, after
transmitting the communication, took
the train for Banf, in the Rocky Mountains, where Sir Mackenzie Bowell, Premier of Canada, now is.

In Winnipeg today the startling rumor was circulated that if Premier
Greenway persists in his refusal to
remedy the Catholic grievances he and
his ministers will be dismissed from
office by the Manitoba Governor. The
Governor has the power to do this, but
such a high-handed course would be
calculated only to intensify the trouble
and bitterness. Certain it is, however,
that the Dominion government is contemplating some decisive movement.

## A DISPUTED BOUNDARY.

The State of Missouri to Bring Suit

Against Iowa.
(REGULAR ASSOCIATED PRESS REPORT.) DES MOINES (Iowa,) Aug. 2.—Gov Jackson has returned from Missour where he had a conference with Gov Stone of Missouri relative to the dis-puted boundary line between the two States. The State of Iowa has asked

States. The State of Iowa has asked the State of Missouri to bring action against the State of Iowa in the Supreme Court of the United States.

There is to be a supplemental petition alleging that the boundary line established in 1837 is the correct line between the two States, and the petition shall further demand that a committee be appointed to obliterate all present lines between the two States in the uncertain territory and establish the initial line of survey as it was made in 1837. This will enable the question to come before the Supreme Court at the October term.

# RIVERSIDE COUNTY.

A Change Made in Banking Circles

Court Notes.

RIVERSIDE, Aug. 2.—(Regular Correspondence.) The change in the First National Bank announcement sometime since to occur, in which A. H. Naftzger would retire from the presidency of the institution and to be succeeded by J. J. Hewitt, formally took place yesterday, and Mr. and Mrs. Naftzger left today for a two-weeks' visit to San Francisco and other points north. Mr. Naftzger's active interest in Riverside and its future will not cease, though he may herafter reside in Los Angeles, where he is a member of the brokerage firm of Stewart & Naftzger, as he still holds his stock in the bank and large real estate interests here. It is hoped he may be permitted to continue to have a fatherly care over the fruit interests of the valley and county by being kept at the head of the Southern California Fruit Exchange, of which he has been the efficient presi-Southern California Fruit Exchange, of which he has been the efficient president for the past year.

COURT NOTES. Judge Noyes has handed down decisions in a number of cases, one being in the case of Clarabel Langley vs. Thomas E. Langley, for separate maintenance of the plaintiff and a child of the union, in which the defendant was ordered to pay the plaintiff \$75 within thirty days and thereafter \$50 per month. Another was in the case of Jennie H. Wright vs. the Riverside Banking Company, in which judgment is given in favor of the plaintiff in the full amount asked for, \$2250, interests and costs, and another in the case of Caroline M. Cook et al., vs. W. W. Cockins, in which the title to 158.88 acres of land near San Jacinto was in dispute, judgment being given in favor Judge Noyes has handed down decis dispute, judgment being given in favor of plaintiff.

acres of land hear san Jacinto was in dispute, judgment being given in favor of plaintiff.

James E. Brown of Galesburg, Ill., son of George W. Brown, deceased, has applied for letters of administration on the estate of the latter through his attorneys, Collier & Evans. Public Administrator Bordwell had previously applied for letters, but it is understood that when the matter comes up next Monday the papers will be voluntarily turned over to Mr. Brown.

Mrs. Annie Maud Kennedy, widow of Willard Clifford Kennedy, who lately died in Rockland, Me., and who was proprietor of the Loring Block drug store, has waived her right to act as executrix of the estate, and named Frank A. Gardiner to be granted letters in her stead. Caldwell & Duncan are the attorneys in the matter. The personal property consists of the drug store mentioned, 44000, and real estate to the value of \$200 in Bakersheld, Cal. C. H. Gentry, through his attorneys, Purington & Adair, has filed a petition in insolvency. The debts are scheduled at \$1400 and assets \$600 in personal property, \$150 of which is exempt from execution, and a judgment against the balance for \$798.50.

# RIVERSIDE BREVITIES.

Mr. and Mrs. Charles W. Filkins, who returned from Hawaii on the last steamer from the islands, are spending steamer from he islands, are spending a time at St. Helena, this State, before returning to Riverside. Dr. A. J. Derby, who went with the party, and as stated in these columns at the time with the intention of remaining there for the practice of dentistry, will located on the Island Oahu.

Mrs. S. L. Wight and three children, Mrs. John Miles of East Riverside and daughter and Miss Nellie Downs, all three of the ladies being sisters, will leave for Cajon, near the Cajon Pass, tomorrow, where they will take a cottage for a month's stay in that delightful mountain resort.

W. J. Argue was this morning sentenced to pay a fine of \$100 by Justice Chambers for selling liquor contrary to the city ordinance. His attorney, L. Gill, at once took an appeal to the Superior Court, and his client furnished a bond in the sum of \$250 pending the suit in the higher court.

suit in the higher court.

Maj. and Mrs. F. J. Hill will go to
Encinitas. San Diego county, tomorrow, where they will visit with friends.
The major will return Monday, but
Mrs. Hill will remain for ten days or

# LORDSBURG.

LORDSBURG, Aug. 2. — (Regular Correspondence.) Miss Lela Woodward and Miss May McCoy started for Long Beach on the early Santa Fe train Fri-day morning. They expect to remain

there several weeks.

President E. A. Miller of Lordsburg
College, Evangelist J. S. Mohler of Morrill, Kan.. and J. S. Soto, were among
the citizens who went to Los Angeles
on the early Santa Fe train Friday

on the early Santa Fe train Friday morning.

The Southern Pacific engineers under D. D. Griffith are again at work in town. They are running a line along the alley between First and Second street, south, in the direction of North Pomona and Claremont. They commenced at the point where their former line to Pomona turned south from Lordsburg, and are running east parallel to the Santa Fe track to a point south of Claremont. From there the line runs direct to Ontario on the Southern Pacific main line. If they adopt this line they will parallel the Santa Fe from San Dimas to Claremont, thus giving San Dimas, Lordsburg, North Pomona and Claremont a competing railroad with depots close together.

Mrs. E. P. Johnson, the Misses Johnson, Mr. and Mrs. E. P. Johnson, Jr., Miss Hattie Chapman and Miss Pattee Miss Hattie Chapman and Miss Pattee arrived for a month and took possession of the tents in waiting for them. Miss Braly joined her mother and brothers who arrived the evening previous and are comfortably installed in their cottage.

Mrs. Tuttle and the Misses Tuttle, Mrs. Parris, Mr. Russell of the Southern Pacific, accompanied by Mrs. Russell, Judge York were among the prominent Angelenos who stepped off the Hermosa.

nent Angelenos who stepped out the Hermosa.

Miss Jennie Eames arrived as the guest of the McCreas.

As a consequence of this brilliant addition to the society galaxy now represented so fully at Avalon, the hop at the payilion was of unusual attraction last night. The smooth, well-waxed floor was crowded with graceful dancers.

At the Metropole Dr. C. Hard. Jacoby, wife and three children, T. O. Johnson of the Westminster, wife, nurse and child of Los Angeles, J. B. nurse and child of Los Angeles, J. B. Dwyer of San Francisco registered. At the Island Villa the following guests arrived last night: Mrs. H. T. Newell, Miss Maud Newell, Miss Ivy Gardiner, Mrs. I. R. Boles, Miss Boles, Mrs. C. Worth, Mrs. A. W. Barrett, Mrs. J. E. Denker, Mrs. N. W. Stowell, Miss Yarby, J. F. Nelson, H. W. Stome, O. B. Phillips, J. Wharton and child of Los Angeles, J. P. Tyson of Pasadena, P. A. Brown of Norwalk, C. H. Algert of Flagstaff.

The following party of Pasadenans registered at the Island Villa last night: Mrs. Nixon, Misses Fife, Gardner, R. Gardner, Paul Fife, J. B. Galt and T. W. Niblock.

Mrs. E. C. Mayo of Quincy, Ill., and Mrs. I. R. Pooley of Buffalo, N. Y., are stopping at the Island Villa.

W. H. Burns, attorney for the Los Angeles Electric Lighting Company, is here for a week, accompanied by his wife and little daughter.

George and Fred Stamm of Ontario are spending their vacation at Avalon. Fred Stamm is cashier of the Ontario Bank.

Dr. Seymour Davis of, Los Angeles. Dwyer of San Francisco register At the Island Villa the follo

Bank.

Dr. Seymour Davis of Los Angeles.

Miss May Stansbury and party of friends arrived on the island last night, going on to White's Landing with the Downey camping party.

This evening the remaining 250 boys from the Whittler State school will arrive to join the advance guard of 100 already located at Swaine's Landing.

C. L. Whipple, one of the proprietors of the Nadeau, is spending a fortnight at the Metropole, accompanied by Mrs. Whipple.

A YACHTING PARTY.

A YACHTING PARTY.
The Violet came in this morning with the following party of Pasadena boys on board, who will go into camp at Avalon: Messrs. John Daggett, M. Hen-derson, Charile Coleman. Arthur Dodworth, Rob and Fred Kimble, Lloyd Macy and Elisha Eldred. The young men in their white sweaters and duck trowsers give a dash and style to the camp that is irresistible.

AMONG THE ANGLERS. Mackerel fishing in the bay was phenomenally good this morning, and the shining beauties were brought in by boatloads. Amateur fishermen and fisherwomen made the most astonishing records. Little nine-year-old Virginia records. Little nine-year-old Virginia
Johnson brought in six fine mackerel,
caught by her small self and Miss Cora
Keeney, also of the Johnson party,
made her debut as an angler with a
string of eighteen fish. When the ladies
came ashore and reported their luck Dr.
Johnson and Gail Borden, who had
been lounging about the island all the
morning, waxed wildly enthusiastic,
cut short their lunch, even to the omitting of dessert, and fied for their boats
to hasten to the scene of battle. Stuart
M. Beam brought in a twenty-threepound yellowtail last night in the bay
near Sugar Loaf Rock.
Yesterday afternoon A. C. Roscoe of
the Metropole, C. L. Whipple of the
Nadeau and W. L. Dickey of Fresno

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES Los Angeles, Aug. 2, 1895.

BANK CLEARANCES. The bank clearances for today as reported to The Times by the Los Angeles clearingare: Exchanges, \$221,269.22; balances, \$36.078.46.

COMMERCIAL.

DRIED APRICOTS. It is a case of stand off between buyers and sellers. Buyers are offering 8½ cents a pound Buyers are offering 8½ cents a pound and refuse to be raised even the smallest fraction beyond that figure. A sale was reported today of 8½ cents plus brokerage, which would mean about ½ cent additional, but buyers did not seem to know anything about it. They all stand "pat" at 8½ cents and from the way they talk they want a very choice article at that.

Sellers are equally firm. They refuse to accept 8½ cents and insist that apricots must go up. No sales are reported.

PRUNES. The market is quiet. No transactions of any importance are reported. The Southern California product this year is not a good one in quality. The fruit is badly smirched. In the central and northern districts of the State the prune only requires spraying at rare intervals, once every three or four years would seem to be sufficient. In the foothills they never spray at all. Here in Southern California spraying would seem to be a greater necessity. Some prunes offered for sale this year are very mangy and for drying purposes would hardly look worth drying. This is a matter the prune-grower of Southern California must look to. The conditions of climate while admirably adapted to the orange, apricot and other fruits, may not be the best for the French prune, and the only way to produce as good an article here as in a latitude further north will be by paying proper attention to requirements.

IRON AND STEEL. Reports from Pittsburgh report purchases for Bessemer pig running away into 1896. One firm alone in that city has just made contracts for 125,000 tons and another for 40,000 tons. A heavy demand for railway iron and rails is expected. Dun's Review says: "Orders for steel rails in the first half of 1895 have been 713,000 tons against 502,000 in the same part of last year, and there are also more orders for cars. While prices of pig iron have not advanced, owing to the expected increase in output, there has been a small advance in angles, and the nail associations have advanced prices 50 cents per keg, both for wire and cut nails, besides adopting new cards for extras which make the advance greater than appears on the surface. It averages over 35 per cent. on the basis price, and the advance in all kinds of iron and steel averages about 5 per cent. IRON AND STEEL. Reports from iron and steel averages about 6 per cent. for the week, and has been 36.3 per cent. from the lowest point last February." At Philadelphia the market is stronger

GENERAL BUSINESS TOPICS.

RAILROAD EARNINGS. The aggregategate of gross earnings of all rall-roads in the United States for the month of July—just ended—will exceed \$15,000,000, an increase of about 33 per cent. as compared with the same month last year but still behind the business

TO KEEP FRUITS FRESH. An official report from the United States Consul at Rheims, France, states that a process has been discovered in that city which will keep fruit fresh for an indefinite period. The process is described as simply being a vapor bath from a mixture of water and alcohol. The report goes into some details in regard to the discovery and it is claimed by the inventor that decay commenced in fruits can, by this process, be arrested, and the fruit maintained in a healthy condition. Speaking of it at this distance and without knowledge, beyond what is stated in the Consular report, of the principles of the process, it would look as though the vapor bath destroyed all the destructive germs which exist in the outer skin of the fruit. There can be no question but what the discovery is a valuable ole, and particularly so to fruit-growers and canners of California. Fruit canners would do well to investigate the matter. They might find in it a valuable aid to their present industry.

INCORPORATIONS. The Commonwealth Fruit Company of Los Angeles county has filed articles of incorporation with the County Clerk. The purpose for which the organization is formed is to deal in all kinds of property, and apply the proceeds thereof to the organization of the Commonwealth Railway and Settlement Company, a corporation formed to establish a railroad through Antelope Valley up to Bakersfield.

The principal place of business is to

road through Antelope Valley up to Bakersfield.

The principal place of business is to be Los Angeles, and the seven directors are as follows: Thomas W. Haskins, C. W. Wells, Nathan Cole, Jr., E. Smead, A. R. Sprague, Cleve A. Richey and S. C. Wilcox. The capital stock is \$10,000, divided into 1000 shares valued at \$10 each. Of this amount \$1950 is actually subscribed.

Articles of incorporation have been filed by the Granite Water Company, organized for the purpose of the development and sale of the water in Fish Canyon, a ravine lying north of Deer Park. The principal place of business is Los Angeles, and there are five directors: Louis Rudolph, August Kowalewsky, Christoph Greve, Michael Luy and Louis Gottschalk.

The amount of capital stock is \$30,000, all of which is actually subscribed.

LOCAL PRODUCE MARKET.

Wholesale Quotations Revised Daily

Wholesale Quotations Revised Daily.

LOS ANGELES, Aug. 2, 1895.

New honey is lower. Crawford peaches are quoted at 50c. Tomatoes now bring but 50c a box. Eggs are unchanged.

(The following quotations are for average grades of the products mentioned. For an extra choice article a somewhat better price than the highest quoted can usually be obtained, while for a product of decidedly interior quality the seller will probably have to accept less than the lowest published quotation.)

Dun's Weekly Review.

NEW YORK, Aug. 2.—R. G. Dun & Co.'s weekly review of trade will say tomorrow that there is a perceptible halt which may deceive if attributed to wrong causes. Trade two mouths late in the spring pushed forward into July a large share of business belonging to April or May. Seeing a rush of orders out of time, many imagined it would continue, and hurried to give other orders. The lam of two months' business into one littled prices. Then other orders came to anticipate a further rise. But the midsummer halt was inevitable, and it is yet somewhat uncertain how much improvement will appear after it. The crop of corn promises to be the largest ever grown and it is yet somewhat uncertain how much improvement will appear after it. The crop of corn promises to be the largest ever grown and its almost out of harm's way. The crop of wheat appears from later accounts perhaps 20,000,000 bushels less than was expected a month ago, and had the best hopes been realized it would have been more than one hundred million bushels short of a full crop. The general advance in many products causes rejuctance to purchase, and the distribution of the past half-year has been in part to make up for stocks and individual supplies depleted during the two years of economy. On the other hand there has been an enormous increase in the working force and a considerable increase in wages paid, which enables people to buy more freely. Strikes of some importance appear, but of only the form of the first ime since the rise in prices of iron products began, there have been some concessions to ret Dun's Weekly Review. NEW YORK, Aug. 2.—R. G. Dun & Co.'s reckly review of trade will say tomorrow that

year, and 28 in Canada, as against 420 last year, and 28 in Canada, as against 44 last year. Bradstreet's Review.

NEW YORK, Aug. 2.— Bradstreet's tomorrow will say that the week presents a larger volume of trade in many lines and at many points than if previous weeks and a year ago. The orders for steel and iron lead all interests displaying remarkable strength. Western manufacturers have been obliged to purchase Eastern billets to meet their orders. Another conspicuous feature of the week is the evidence of reviving confidence on the part of the Western and Northwestern interior merchants, now that the Corn and spring-wheat crops promise well. This is shown plainest at Chicaro, St. Louis. Milwauhee and the corn and spring-wheat crops promise well. This is shown plainest at Chicaro, St. Louis. Milwauhee and the corn and the

in person have increased to a striking extent. At the South general trade remains of moderate volume, as previously noted. Nashville and Leviston alone report a material gain. There is a better outlook and feeling at Charleston, but elsewhere midsummer quiet rules. Delay in paying the sugar bounty affects trade very univorably in Louisiana. Trade on the Pacific Coast is of moderate volume, fair for the season, Tacoma and Seattle reporting an expansion of demand, and Portland and San Francisco no material change. Exports of wheat (flour included as wheat) from both coasts of the United States and Montreal show a moderate increase over a week ago, the total being 1,469,000 bushels, a gain of about two hundred thousand bushels. This is due to increased exports of flour, principally from New York, Baltimore and Newport News. This week's total of wheat and flour exports of 1,469,000 bushels is contrasted with 2,977,000 bushels a year ago, 5,672,000 bushels two years ago, 3,978,000 bushels in the corresponding week of 1892, and 4,037,000 bushels in a like week of 1892.

# NEW YORK MARKETS.

REGULAR ASSOCIATED PRESS REPORT.)

(REGULAR ASSOCIATED PRESS REPORT.)

REW YORK, Aug. 2.—A lower range of values was established in a large majority of the stocks traded in on the Stock Exchange. The general cause of the depression was heavy realizing by bull pools to take profits. Engagements of gold for shipment to Europe tended to, weaken the market. At the opening Sugar was sold freely, declining 1% per cent., while the rest of the list fell off a fraction. The reactionary tendency was quickly checked and a fairly good purchasing movement set in, which sent Sugar and Canadian Southern up 1% per cent., and others less amounts. About 11 o'clock a general decline took place, Sugar losing 2% and Sugar preferred 2 per cent. The bear attack had spent its force about delivery hour, and under covering of short contracts a raily was effected, being % per cent. each in Sugar and Pacific Mail. In the last quarter of an hour. Sugar and Chicago Gas were again sold heavily and broke 1% and 1 per cent. respectively, the rest of the list easing off fractionally and the market closing weak. Sugar has a loss on the day of 3% per cent. Canadian Southern shows an advance of 1 per cent. Bonds were quiet and generally lower, with sales of \$1,580,000.

dian Southern shows an advance of 1 per cen Bonds were quiet and generally lower, wit sales of \$1,500,000.

Gold for Shipment. NEW YORK, Aug. 2.—There has been \$1,000,00 in gold ordered at the sub-treasury by the Sank of Mostreal for shipment tomorrow by he European steamer.

The gold ordered by the Bank of Montreal seeing withdrawn from the sub-treasury. It

NEW YORK, Aug. 2.—The Evening Post's London cablegram says that the stock markets were idle today, except Kaffirs, which were booming. American securities closed a shade firmer after duliness. The prolongation of the holidays may check business a little. Otherwise everything indicates a good outlook for all markets.

Petroleum. NEW YORK, Aug. 2.—Petroleum was easier losed offered at 1.30. GENERAL EASTERN MARKETS.

Grain and Produce. Grain and Produce.

(REGULAR ASSOCIATED PRISS REPORT:)
CHICAGO, Aug. 2.— In wheat today there was once more a reversal of the general sentiment. Some low bid from higher per busher over yeaterday's closing price, but they were immediately overwhelmed with offerings. The early dispatches from New York had for their most prominent feature the report that \$500,000 gold would be shipped from there tomorrow. There was nothing else in the early telagraphic news to account for the great change in public opinion, but that was enough to despen the distruct with which the traders came prepared. The foreign markets were firm. At the opening Liverpool quoted id advance, Barlin was all traction lower than it closed pasterday, and had turned that into an advance at the clean as account of no rain in France. In the

August ..... September ... December .... Corn, No. 2—

On the Produce Exchange today, the butter market was steady. Creamery, 10@15; dairy, 10@15. Eggs were steady at 11@11%.

Chicago Livestock Market.

Chicago Livestock Market.

Chicago Livestock Canning cows were weak, but good butchers' stuff was strong. Some fancy Western range steers sold today at 5.10, the highest price of the year, and some nice fed Texans, \$4.35. Hogs exceeded the demand, carried over. Heavy hogs sold at an extreme range of 4.25@4.90 for poor to choice, packing at 4.30@4.50, and shipping lots at 4.50@4.50. Greatly reduced offerings allowed sellers to dictate, and sheep were about 25c higher than a week ago. Natives sold at 2.00@4.25. Sheep from Wyoming, Montana and Dakota were plentiful and sold actively at 3.50@3.75. Lambs showed great activity, and were fully 75c above the lowest prices of last week, good to choice selling at 4.50@5.25. Receipts of cattle were 6000 head; calves, 500; hogs, 9000; sheep, 10,000.

An Immense Corn Crop.

Chicago, Ang. 2.—A local paper says that the crop of corn, this year will be the largest that has even, been known. It is estimated at the present time that the yield will exceed by 200,000,000 bushels the record of any previous year. This condition did not exist a month ago. At that time continued drought in nearly all the corn States made the outlook dublous for an average yield. But the rains came, heavy and continued showers, just at the time most needed, and today prosperity hovers over millions of homes. How much depends on the corn crop is realized by few. The crop will bring more money, if marketed, than all other products combined. The estimated yield of corn for this year is from 2.50-00.000 to 2.500.000,000 bushels. At the present price, which is 35c for December or May delivery, the crop will be worth \$800,000.00.

The decline of 5c a bushel would mean a difference of \$115,000.000 in the value of the crop. To emphasize the immensity of this product, it may be said that the State of lowa alone will raise enough corn this year to supply more than fi

year was in 1889, when the acreage was 78,-319,651 and the yield 2,116,829,000 bushels.

The Fruit Auction Fight.

CHICAGO, Aug. 2.—Regarding the report from San Francisco that circulars purporting to come from the Edgecomb Company, general commission and brokerage fruit-growers of the Coast, it was learned at Robert F. Edgecomb's house in this city that such a circular had been sent out, and it is the result of an effort begun three weeks ago by several of the large houses in South Water street to bar out retailers from the privilege of attending the suctions, to compel them to make all their purchases from the wholesale houses. Prominent wholesalers in the combine take exception to the methods of a certain firm in admitting vehders and peddiers to the auction sales, and have started a rival auction-yard in the yards of the Illinois Central Railroad. So far the amount of business done is much less than at the open auction, at which from ten to fitchen carioads of fruit are sold daily, while the average sales at the closed auction do not amount to more than four or five cars a day.

Liverpool Grain.

No. 2 red spring, 5s 5d; No. 2 red spring, 5s 5d; No. 1 hard Manitoba, 5s 10d; No. 1 California, 5s 5d. Futures closed steady, with near positions 4g/6yd higher, and distant positions 4g/6h; higher, and distant positions 4g/6yd higher. Business was about equally distributed. August, 5s 54d; Spetember, 5s 53d; October, 5s 64d; November, 5s 7d; December, 4s 14d; November determined from, with October 4d higher and other months 4d higher. Business was heaviest on mearest and most distant positions. August, 4s 4d; September, 4s 14d; November, 4s 14d; Flour was steady and the demand fair and freely supplied. St. Louis winter, 7s 6d.

Boston Wool Market. Liverpool Grain.

Boston Wool Market. Boston Wool Market.

BOSTON, Aug. 2.—The wool market is much quieter, as far as domestic wools are concerned, though full rates have been paid on every lot sold. This is the first week when there has been more foreign than domestic wools sold in the Boston market. Purchases of Australian wools for America, 60,000 bales in the late auction, were the largest on record at any sale. Cape and Montevideo shared with Australia in the brisk demand for foreign merino wools. Cape combings have been sold on a basis of 38c clean, and choice Australian clothing as high as 46c clean. The sales of the week were 3.646.00 pounds of domestic and 3,777,500 pounds of foreign, as against 3,725,500 pounds of domestic and 1,765,000 pounds of foreign last week.

Philadelphia Sugar.

Philadelphia Sugar. PHILADELPHIA. Aug. 2.—The local sugar refineries today reduced the price of Nos. 13 and 14 of the soft grades, from 3% to 3% for No. 14. This reduction was made so as to enable the refineries to compete with the same grades of Scotch sugar, which has been underselling them.

OMAHA. Aug. 2.— Cattle were active and firm. Western steers, 3.50@4.60; canners, 1.50@2.50; stockers and feeders, 2.76@4.00; calves 2.50@4.75. Sheep were strong. Fair to choice Western, 2.50@4.50; common and stock sheep 2.00@2.75; lambs, 3.50@5.00. Fruit at Chicago.

Carriage Upset. While Mrs. George B. Mullins, her two daughters, Miss Dorsey and Mrs. Hamilton, were out driving yesterday evening, their carriage was upset at Eleventh and Olive streets and several of the ladies were badly injured. Miss of the ladies were badly injured. Miss Annie Mullins was hurt about the head; her sister received more or less bruises; Mrs. Hamilton, formerly Miss Jennie Kempton, a well-known singer, received an ugly bruise on the right arm; Miss Dorsey was slightly hurt, and Mrs. Mullins escaped injury altogether. The vehicle, which belongs to Capt. Mullins, was badly wrecked. The accident was caused by a horse ridden by a boy running into the team hitched to the carriage, causing the horses to

to the carriage, causing the horses to whirl about and overturn the vehicle. A Newspaperman Hurt. While helping to decorate the rooms While helping to decorate the rooms of the Press Club yesterday morning, preparatory to the house-warming of the club this evening, Frank Barnes, one of the officers of the organization, fell from the top of a ten-foot ladder, sustaining painful injuries internally. The doctor thinks he will be able to be about in a few days, but will be obliged to absent himself from tonight's festivities.

SANTA BARBARA COUNTY.

Prof. Tyndall Mystifying Barbare-

nos—A Boy's Mishap.

SANTA BARBARA, Aug. 2.—(Regular Correspondence.) Prof. Alexander
J. McIvor Tyndall, the mind-reader,
has been giving seances at the Arlington Hotel. On Saturday morning Prof. Tyndall proposes to drive down State street in quest of an article that is to street in quest of an article that is to be hidden. He will be blindfolded, and has every confidence in successfully finding the hidden article. This same man intends to perform the burial test on the grounds of the Arlington. His proposition is to be buried for ten days, a guard to be placed over his grave, and seed to be planted over the same, so as to give assurance that he has not been disturbed before the expiration of the ten days. This burial test is identical with that performed by the East Indian fakirs, known as Yogi. In order to carry out this test, Prof. Tyndall's body is to be covered with clarified butter, designated in India as gee, his ears and nostrils being filled with this preparation. After this is done the professor will be sealed hermetically in a fine casket that has been presented for the 20-casion. The professor says that if he does not do the test in the United States he will in Bombay next year. A number of the prominent physicians of this city will be invited to witness the burial test. be hidden. He will be blindfolded, and

SANTA BARBARA BREVITIES A young boy by the name of Cadwell, living at Carpinteria, had the misfor-tune to have both of his legs broken just below the knee. The boy was driv-ing a hay baler when the singletree snapped, striking him with such force as to cause the injury mentioned. Mr. and Mrs. Theodore Breslauer have

as to cause the injury mentioned.
Mr. and Mrs. Theodore Breslauer have
lost their youngest daughter, Dorothy,
who died from concussion of the brain
Thursday afternoon.
An evening paper of Los Angeles
states that one J. Leonard Johnson was
at the Arlington Hotel lately and was
splurging around with the attaches of
that caravansary. This is a great injustice to the gentlemen connected with
that establishment, as Mr. Johnson did
not do anything of the kind and he does
not appear to have been registered at
the Arlington.
Mrs. Francis Broome gave a garden
party at her sumptuous residence, corner of Castillo and Micheltorena streets
Thursday evening in honor of her many
friends. The invited guests numbered
two hundred and fifty. Immense bonfires illuminated the grounds, making
the night as if day. After a number of
hours spent in conversation, music and ne night as it day. After a number of hours spent in conversation, music and games, the party were escorted to the Arlington, where a supper of one hundred and twenty covers was served. Mrs. Broome is the widow of a very wealthy English gentleman, and owns much property in Santa Barbara county. Her husband was known as Lord Broome.

Lord Broome.

VENTURA, Aug. 2.—(Regular Correspondence.) Joe Antone, charged with seducing Minnie Seegar, the four-teen-year-old girl of Tehachepi, who committed suicide Wednesday night rather than explain to her parents, was arrested here today. Sheriff Borg-wardt of Kern county arrived this evening to take charge of the prisoner. Antone is afraid to go back, fearing lynching.

PASSED A FORGED CHECK. A well-dressed young man, giving the name of Robert Davis, came into town from Hueneme Wednesday morning, name of Robert Davis, came into town from Hueneme Wednesday morning, and immediately made himself very popular in the saloons. Just before the bank closed he succeeded in getting a check for \$25 cashed in Leon Cerf's saloon, and vanished for parts unknown. When the check was handed into Collins's Bank it was discovered to be a forgery, and the Sheriff Snodgrass went to work on the case and at 8 o'clock Thursday morning overhauled Davis at Santa Paula, as he was preparing to drive out of town, and placed him under arrest. Meantime, a telephone message from Hueneme was received at the Sheriff's office, asking that Robert Davis he apprehended, as he had passed a forged check on a saloon-keeper named Doyle, who was ready to swear to a complaint in the event of his being captured. Davis claims to be well connected in Fresho, and insists that these are his first offenses. His preliminary examination is set for Saturday, by which time the Sheriff hopes to have learned something more of his back record, as he looks and acts like an old-time crook. A full description of Davis will be sent out, in the hope that he may be fully identified.

dinary in the fact that Sacramente

But look for a moment and see the extent of this extraordinary growth.

From a mining settlement in 1847 it has

grown to be "an immense city of 40,-000 people." Now, admitting that in

the first mentioned year, that of 1847,

and that one a dead one, it would still

show a gain of only 40,000 inhabitants

in forty-eight years—the period com-

prised within the years 1847 and 1895.

This is less than a yearly average in-

crease of 900 for each and every year

of its "extraordinary" existence. That

the extraordinary part of it is not ap-

parent, unless by it is meant that it is

extraordinarily slow. Why, there are lots of towns in the State that can

make a better showing than that. If

they couldn't they would ask to be dis-

incorporated and go out of existence.

Here is another little fact that has

some bearing on this "extraordinary

growth" of Sacramento. In crediting

that city with 40,000 inhabitants, which

the Call, in its excellent article, gives it,

care should be taken by the precise

they are in the city, but it cannot b

said they are of it. They are, no doubt,

included, both they and their families,

in this "extraordinary" increase in the

population of Sacramento, but if at any

time it became advisable to remove the

workshops of the Central Pacific rail-

way to some other point in the State

it is more than likely that the work-

men would go along with the work

shops and that the wives and familie

would go along with the workmen. Such an exodus as this would knock

a terrible old hole in that extraordi-

nary increase in the population of Sacramento. The 40,000 present inhabitants would dwindle down to inferior figures and the Mayor and Aldermen of the city would be in mighty big luck.

statistician to make due allowar the 2500 railway employees. It is true

MIDSUMMER NUMBER OF THE

On the 15th of August The Times will issue a unique special Midsummer Number, describing Los Angeles and Southern California in the season of utmost warmth, and under the highest conditions of vegetable growth and fruit production.

It will be a number redolent of summer and breathing of the fruits. flowers and grains that grow in our prolific soil.

This issue will differ in essential particulars from any before issued by The Times. The peculiar charms of the country-charms which never fade, but grow brighter with the passing years-will be set forth with fidelity; and our aim will be to make the number as valuable in its contents as it will be attractive in letter-press and

It will be a triple sheet of 36 pages, and in its contents will be embraced adequate and accurate descriptions of the towns and cities of the south, with records of progress in each.

The seaside and mountain resorts will receive particular attention, with the especial object of showing strangers what summer life in Southern California actually is. should have such an "extraordinary

City, village, suburban and country will be truly pictured and de scribed for the benefit of distant readers and intending residents.

"How Things Grow" is a subject which will be fully treated and re liably portrayed.

A volume of up-to-date information about the country will be given, and many new topics will be exploited, and old ones newly treated.

The commercial, business and building progress of the city and country will be shown.

may be an "extraordinary growth." but There will be a special and elaborate account of the important oil development in this city, with a trustworthy description of the numerous openings for the application of enterprise and the investment of capital,

Other interesting features of the southern country will be presented in the Midsummer Number. We guar antee a fine issue, a numerous edition and one of the best of the many creditable papers for which the Times office

A more specific and detailed list of contents will be found in another part of this issue.

In the Stockton Independent of re ent date appeared an alleged inter with "a business man from the hern part of the State," in which interviewed is quoted as fol speaking of the San Joaquin Val-ailroad:

"If the building of this railroad had an commenced at Los Angeles, or an San Diego, there would be noise lough in the town to make strangers lak they were in the center of Chigo. Stockton takes the matter with the city would be in mighty big luck if there remained within the corporate limits a sufficient number of male voters to re-elect them to office.

A Sacramento paper published a few days ago an absurd article, or letter, about Los Angeles—so absurd, indeed, that it was amusing. Los Angeles in its strength and prosperity can afford to be magnanimous, but it is well to let slip the truth sometimes, even if it dees bring the devil up with a round turn

short space of eight years Los Angeles has added a greater number of inhabitants to its, population than Sacramento after its extraordinary existence of forty-eight years possesses today, all told. In 1880 Los Angeles had a population of 11,183. That same year population of Sacramento city was 21. 120, or nearly double that of Los An-Today the population of Sacramento is—extraordinary growth in-cluded—40,000, while that of Los Angeles is 80,000; that is to say, double that of Sacramento. That is a small cud thrown out for Sacramentans, with

their extraordinary growth, to chew on Moral: As figs will not grow thistles, neither will population in rease at points where the conditions are contrary to its natural develop

TREASURY TRANSACTIONS.

The July statement of the Treasury Department is not encouraging. As was foreshadowed in these columns at the time the June statement was pub July show a large deficit, as between eccipts and expenditures. The total revenue for the month was \$29,069,697. while the expenditures amounted to \$38,548,063, leaving a shortage of \$9,478,

This deficit is not quite so large as was predicted, but it will do. It shows plainly the duplicity practiced in the compilation of the statement for the receding month, when a "surplus" few thousands was figured out by As The Times has pointed out, the alleged surplus for June was evolved by deferring the payment of current obligations of the government to the amount to three or four millions. These obligations, or some of them, have since been paid, hence the large deficit for July.

The total receipts for July, 1895, we nearly \$6,000,000 less than the receipts for July, 1894, while the expenditure were some \$2,000,000 greater. Increas ing expenditures and dwindling reve nues are not pleasant to contemplate. It is a condition, and not a theory, which confronts the administration.

The increase of the public debt dur-

delivery to the London syndicate of the final installment of 4 per cent. bonds, as contracted for sor ontracted for some months ago. total debt, interest-bearing and non-interest-bearing, as appears from the statement, is \$1,127,258,345. There's no telling how much this may be interm, if expenditures continue to in-

## LETTERS TO THE TIMES.

Speaking for the Woman. LOS ANGELES, Aug. 1.—(To the Editor of The Times.) I have noticed that while you are very radical in your views on any subject which you embrace, you are yet liberal and will say and let say in your columns a very commendable. in your columns, a very commendable quality which is prized by those who do not always agree with you; hence I venture a suggestion on the woman's suffrage question which I know is not in line with The Times' idea of the new

in line with The Times' idea or the new "phantasy."

Two Irishmen, tramps, worked out a formula which I think illustrative. They had raided a window cupboard and among the awards of their questionable industry was a plum pudding, but neither knew what it was, and a controvery arose as to its edibility, the one swearing it was not fit to eat, and the other that it was, ending in a quarrel, and finally, a fight. At this critical juncture O'Leary said: "Teddy, begorry! let's stop an' try it fur luck." The conlet's stop an' try it fur luck." The con-troversy was settled satisfactorily and so was the pudding, which was full of

it, then will be time enough to discard it.

In Wyoming, where woman suffrage has been longest in vogue, long enough to test it pretty thoroughly, it works well and to the satisfaction of both sexes, and we find women women still; not in the least coarse, nor unsexed, neither do they work the roads, nor get publicly drunk on election flays, nor stuff ballot boxes, nor make riots, nor stuff ballot boxes, nor make riots, nor bribe woters, nor debauch our noble sex, nor stand and stare at the men, nor "buttonhole" them except in the most polite, hence winning way. And their homes compare most favorably, wherever I had an opportunity to see them, with those of other States, in neatness and homelike comforts, nicely dressed, clean and bright-faced children, and it seems to me these facts, like the eating of the pudding, settle the question of its expediency by answering all objections.

tions.

It does not take a woman half so long to go to the polls and vote as to make a fashionable call, and there is a deal more sense in it. And, too, men there find their wives, sisters and other men's sisters just as lovely, laving, dear and endearing as do we men of California, and so satisfied are they of this they are satisfied with woman's suffrage.

EQUALITY.

THE "NIGGER SLOUGH." The Situation as to Abatement of the

The question of the abatement of the

The question of the abatement of the nuisance caused by the filthy condition of the "Nigger Slough," spoken of st length in The Times of yesterday promises to give rise to some interesting complications.

About one year ago District Attorney Dillon brought suit in the name of the people against the owners of the land on which the slough is situated to compel them to abate the nuisance.

In the case of such a suit brought by civil process it is necessary that before the suit be prosecuted it be approved by the Attorney-General of the State. Accordingly District Attorney Dillon submitted the case to Atty.-Gen. Hart. The latter official after considering the question, advised the District Attorney that he would approve the proceedings if a bond sufficient to guarantee the costs were furnished.

This bond was in due time sent to Atty.-Gen. Hart, but for some reason he permitted the papers to remain in his office until his term expired, he not giving the desired approval.

The matter was brought to the attention of Atty.-Gen. Fitzgerald, the incumbent, and some time later he sent a letter to District Attorney Donnell, stating he would not approve the proceedings.

This action of the Attorney-General

This action of the Attorney-General, This action of the Attorney-General, it is stated, leaves the abatement of the nuisance dependent on either private prosecution by civil process or criminal prosecution in the name of the people.

Meantime, while means of abating the nuisance are being discussed the slough is giving forth the deadly odors, which are detrimental to the health of residents of a large territory. Members of the Board of Supervisors say they would be glad to take steps to have the nuisance abated, but with the situation as it is they have no power to do so.

About 3 p.m. yesterday there was a small fire on the corner of Ninth and Lemon streets. Two engines were rushing at full speed toward the scene of the blaze when they struck a piece of street where the sand was about eight inches deep. As a result both engines stuck fast. One succeeded in pulling out, after only a few minutes delay, but the other was there for over thirty minutes, and came very near tipping over before it was started on its way back to the engine house—for the fire was over by that time.

Rolled a Drunk,

Between 5 and 6 o'clock yesterday,

[RAILROAD RECORD.] LINE FROM UTAH.

R. C. Kerens Sees a Little En-couragement-Railway News.

The impression seems to prevail among most people, except perhaps the owners of the line themselves, that the itable territory and appropriating the of those who keep posted it is urgently the Los Angeles terminal of a nev transcontinantal line and thus become the valuable property its proprietors the valuable property its proprietors and owners hoped it would be. Resident officials of the company fully appreciate the fact that the time is now ripe to extend the Terminal road up into Utah to a connection with some existing line that would afford the necessary link of a new transcontinantal route. That Southern California needs such a line all seem to concede and that Sait Lake City and all Utah would profit by it goes without saying. The Terminal road does not now reach very far towards Sait Lake but it controls the situation hereabout in possessing admirable facilities not only in this city but at San Pedro, where is to be the great deep-see harbor.

The owners of the road have been urged to take some aggressive steps toward advancing the enterprise of a road to Salt Lake but just at this season of the year it appears to be difficult to induce Eastern capitalists to forsake the summer resorts long enough to talk business. In a letter received by T. E. Gibbon, Esq., attorney for the company, from R. C. Kerens of St. Louis one of the largest owners in the road, Mr. Kerens says:

"I have some very encouraging reports from the Mormons of Salt Lake. They are bestirring themselves and getting organized, with a view of building the line to Southern California. There are also other parties who are figuring on this, but I consider the Mormons by all odds the most substantial."

In Mr. Kerens's letter he alludes to what may be a depionable fact that while the people of Los Angeles and Southern California are very anxious to invest their money with a hurrah they are slow about lending a helping hand. The owners of the road have been

CANNOT HITCH.

CHICAGO, Aug. 2.—The Western roads today made an attempt to ar-range a meeting for the perfection of range a meeting for the perfection of the passenger association, but it ended in nothing. The preliminary meeting had been scarcely convened in the office of Chairman Caldwell when word was received from General Passenger Agent Lomax of the Union Pacific that he would not be able to attend any general meeting. This blocked the whole game and everything was declared off. NORTH PACIFIC COAST.

ter, the president of the North Pacific Coast Railroad Company, appeared be-fore the State Board of Examiners to-day. He said the road showed a slight improvement this year over the pre-ceding one. OREGON SHORT LINE.

HELENA (Mont.,) Aug. 2.—In the Circuit Court of the United States for the district of Montana the application of the defendant to amend its answe In the case of the American Loan and Trust Company against the Oregon Short Line and Utah Northern Railroad Company was denied and, as the court was to take a recess until Wednesday next, further proceedings were deferred until that day when a decree of foreclosure will be entered in accordance with the prayer of the complainant and as ordered by Judge Bullinger in the district of Oregon. This leaves only Idaho, Utah and Wyoming courts to pass upon the proceeding.

Fire on the Buens Vista-stree

Buena Vista-street fire about 1:55 yesterday r portion, between the two parts of e double floor, it is thought to have en caused by sparks from a locomo-

the double floor, it is thought to have been caused by sparks from a locomotive passing below. Chemical No. 3 put the fire out before any very serious damage was done. A barrier was at once put up so that traffic might proceed without danger. The occurrence is another argument in favor of oil-burning locomotives.

It was warm weather yesterday, and Con Dwyer was dusty and hot, so he went down into the river bed, about 100 feet from the railroad bridge, and prepared to go in swimming, but he forgot to wear a bathing suit, and an unsympathetic policeman came along and made him don his garments, and locked him up in the East Side police station, to wish he had put off his bath another year.

Peter N. Trohn and family have moved from No. 122 North Hagoock street to rooms in the Moore Block.

J. B. Stowell, driver of chemical engine No. 3, will go to San Diego today to enjoy his vacation.

Rev. W. M. Sterling, pastor of the Asbury Methodist Episcopal Church, has charge of the children's meetings at the Methodist camp meeting at Santa Monica.

Rev. George E. Dye, pastor of the

Santa Monica.

Rev. George E. Dye, pastor of the East Los Angeles Baptist Church, is still in Boston. He will return from his Eastern vacation trip in about two

THE DIURNAL SUICIDE. Charles Endl Shot Himself Through

The diurnal suicide yesterday occurred at 7:40 a.m., the yictim being Charles Endl. He shot himself through the heart with a 38-calibre revolver, producing instant death.

The tragedy took place in room 11 of the Hotel de Strasbourg, corner Ducommun and Alameda streets, where Endl lived since coming to Los Angeles a few months ago. He was a nephew of the proprietor of the hotel, Ferdinand Endl. Despondency was the cause.

despondent, and sometimes remarked that life was not worth living. He hinted at suicide several times, but his friends did not take his remarks seriously.

Yesterday morning Charles Lippe, Endi's room-mate, an employee of the hotel, entered their appartment, and saw Endi on his knees leaning over his trunk and reading something.

"What are you doing, Charley?" asked Lippe.

"Looking over some memoranda." was the reply.

Lippe then left the room and went to another room a few doors distant. He had been gone only a few minutes when he heard a pistol shot in Endi's room. He suspected at once what had happened, but went downstairs and called the barkeeper, Charles Endi, cousin of the suicide, before investigating. Together they proceeded to the room, where they found Endi lying face downward by the side of his trunk, both hands clasped over his left breast and a revolver lying under him. He was gasping for breath. They turned him over and placed a pillow under his head to make him as comfortable as possible, but in a moment all was over. Endi had shot himself through the heart, apparently, while stooping over his trunk in the same position in which Lippe last saw him. The police were notified and Officer Holleran stood guard over the body till the Coroner came. The remains were then removed to the undertaking establishment of Booth & Row, where an inquest was held in the afternoon, the jury rendering a verdict in accordance.

NEWSBOYS' HOME

Sketch of the Place, Its Work and

The Home for News and Working Boys, now located at No. 527 Ducommun street, grew out of a reading-roo

for these boys, by Mr. Studd, an English evangelist who came to this Coast with Mr. Moody. The home is now in its fifth year, and the number of boys sheltered there averages twenty-five, though there are sometimes as many as forty in the house in the wintertime. The home, is ably managed by the matron, Miss Mary Housel, and the house-keeper, Miss Young.

The object of the home is the physical and moral welfare of the neglected, homeless boys of the city, especially newsboys and bootblacks.

It is supported by pledges and the small amounts required of the working boys. They are charged 5 cents a meal, 5 cents a night for lodging, and for their washing 15 cents a week.

Boys are received between the ages of 6 and 16. When they are not able to work, they are taken care of, and those out of employment are helped to secure work.

The Ducommun mansion, which the home now occupies, is situated in an inconvenient, out-of-the-way place, and the greatest need of the institution is a house of its own, in the heart of the city, where the boys could easily run in after their work, and enjoy the reading-room, and some of the comforts of a home. As it is now, the evening school which has been attempted several times, had to be given up, and the reading-room is not accessible to the many who might enjoy it, if it were school which has been attempted several times, had to be given up, and the reading-room is not accessible to the many who might enjoy it, if it were nearer the center of the city. It is hoped that sometime a home may be built especially for the purpose.

Among the present pressing needs are more cooking utensils and dishes. Groceries, clothes and fruit for canning are always acceptable:

The home is non-sectarian, but each boy is expected to attend either a church of Sunday-school each Sunday. The prayer league from the First Methodist Church holds a meeting every Friday evening, which the boys enjoy immensely, especially the musical part of the programme.

The existence of the home has been so short that the managers are hardly yet able to judge of the strength of its influence, but many of the boys are doing well, and are a credit to the institution.

The house now accumind is moderately.

tution.

The house now occupied is moderately large, and, though very bare, it is kept extremely neat. That the boys consider their rooms their own particular property and stand ready to resent any invasion by boys belonging in other rooms is shown by the placard found pinned to one of the doors, inscribed as follows: "eny-one cought in this room that dont belong in here please keep out or beware of your face this means you see!"

JULY WEATHER

A Summary of Last Month's Meteorological Data.

George E. Franklin, the Los Angeles monthly meteorological summary for July. The mean atmospheric pressure for the month was 29.95. The highest pressure was 30.03, on July 28, the low-est, 29.86, on July 8.

The mean temperature was 68 deg. The mercury rose to 85 deg. on the 6th and sank to 54 deg. on the 31st. The greatest daily range of temperature was 28 deg. on the 5th; the least daily range was 13 deg., on the 3d. The mean temperature for July has varied mean temperature for July has varied during the past seventeen years from 65 deg. in 1880, to 74 deg. in 1891, but the mean for the whole period is 71 deg. The average deficiency of daily mean temperature for the month has been 2.4 deg. The accumulated deficiency of daily mean temperature since January 1 is 169 deg. The average daily deficiency since January 1 is 1 deg.

The prevailing direction of wind for the month has been west. The total movement amounts to 2330 miles. On the 31st a west wind attained a velocity of 14 miles, the highest for the month.

The total precipitation for the month was hardly a trace. The mean dewent trace 50 der. the mean develocity of 1 der. the mean develocity of 1 der. the mean develocity mean relative mean relative mean relative mean relative.

month.

The total precipitation for the mentice was hardly a trace. The mean dew point was 58 deg.; the mean relative humidity 80 deg. The total precipitation for July for the past seventeen years has been nothing in 1877, 1878, 1879, 1881, 1882, 1884, 1880, 1892 and 1893; a trace in 1880, 1883, 1885, 1889, 1891, 1894 and 1895; just 24 of an inch in 1882, 07 of an inch in 1887, and .03 of an inch in 1888, making an average precipitation of .03 of an inch. The total precipitation for .03 of an inch as the second of .03 of an inch in 1887, and .03 of an inch in 1883, making an average precipitation for .03 of an inch in 1883, inches, so the deficiency for this season amounts to 2.25, inches. The average precipitation for the past ten wet seasons has been 21.58 inches. During the past month 3 days have been cloudy, 28 partially cloudy, and none entirely so.

HUTCHINS AS A HUBBY.

Humane Officer's Wife is After

Him for a Divorce.

In performing his duty as he found
it, Humane Officer D. S. Hutchins happened to tread upon the toes of William Niles, and the latter has retallated
by digging up the record of the officer.
In consequence of this it is made public that the wife of Hutchins is up in

ANNEXATION .

The Committee of One Hundred Held

The Committee of One Hundred, or-ganized to work for the annexation of large portions of the southern and southwestern suberbs of Los Angeles, held a meeting last evening in the As-sembly Hall of the Chamber of Com-

merce, with Col. Messmore as temporary chairman.

Capt. F. N. Marion read a report on the question of annexation, on which the Literary Committee, consisting of Messrs. C. W. Hyatt, F. N. Marion, J. W. Francis, R. H. Frost and I. R. Messmore, had been at work for nearly a month. The document is an able exposition of the arguments in favor of annexatian, showing how it would benefit city and suburb, rich and poor. An election will probably be called for September 15, to decide the question of annexation. The report will be printed in pamphlet form, and 7500 copies distributed to aid in an educational campaign.

Wants His Wife.

Wong Sai Hock is the name of a Chinaman who is looking for his wife, about fifteen months ago he left to go to China and in his absence his wife asked protection from the police. She stated that she feared she would be sold into slavery. She and her son were accordingly sent to a place provided for them near Ontario. Not long since Wong Sai Hock returned to this country, and, after some difficulty in landing, came to this city. Finding his wife had gone he commenced a search for her. He made a formal demand for her at the police station, and it was stated that Rev. G. L. Cole knew of her wherabouts. As Mr. Cole was out of town the woman has not yet been located.

Charles R. Lloyd of the Edison Elec-tric Lighting Company left for New York on the Santa Fe overland yester-York on the Santa Fe overland yesterday afternoon, after having been in this city for a day or two. Just as he was getting ready to go to the train he was seen for a moment by a reporter, and asked in reference to the purpose of his visit to this city. He said hurriedly that he was here in order to see about an electric lighting system with underground conduits. He expected to return here in September, when there would probably be something done in the way of the establishment of such a system.

Yesterday's donations were as fol-ows: Prunes, peaches and apples, D. lows: Prunes, peaches and apples, D. C. Andrews, Whittier; flowers, Mrs. W. S. Marsh, La Crescenta; dew-berries, B. F. Eastman, Alamitos; French prunes and Burbank plums, J. W. Notten, Ventura; prunes, R. McMenamin, Ventura; quinces and lemons, Mrs. Eleanor Clover. Ventura; Early Crawford and Old Mission clingstone peaches, Flemish Beauty pears, citron of commerce, Bradshaw plums, Bartlett pears, oranges and lemons, all from the Piru rancho.

FOR HOUSEKEEPERS, AND PRACTICAL HEALTH CALENDAR.

ALL ALONG THE LINE.

estimated that a thousand res dents of Redlands are at present away coast and elsewhere. And yet there are few more favored spots, even in sum-mer time, so far as a desirable and healthful climate is concerned, than that same city of Redlands.

tedlands's total city assessment for 1895 is \$2,669,412, a decrease of \$104,715 from the previous year. This shrinkage, however, does not indicate that that city is going backward. It is only the result of the statutory law which came in force this year, exempting from tax-ation trees 1% years of age and under.

The scriptural aphorism by which men are minded to abstain from the appearance of evil may be studied with profit by the men who control the public chools of this city, and who dispense the contracts for supplies for the same Business transacted in the interests of the public should not be left open to the slightest suspicion of unfair or dishon-

When a man can swing at will from trime to insanity and back again, and escape the consequences of both by the same slippery trick on two separate occasions, it is time to call a halt some-where. A forger may cheat the law through a dodge like that once or twice, but, fortunately, it is tolerably certain that he is taking a straight course to his true home in the penitentiary.

A New York man named Cody—not Buffalo Bill—was so pleased with re-ports of the condition of Los Angeles banks and the deposits in their vaults that he started for this city, determined mistake of only having one gun and letting the New York police into his secret, and another by buying a steam-ship ticket instead of coming by rail.

Considerable railroad news may be found almost daily in the regular correspondence page of The Times, in the reports of the movements of right-of-way agents, engineers and emissaries of the Southern Pacific Company, which corporation has apparently concluded to build lines to every town in Southern California, and all of them expect to be on the main line, and be favored with the through trains.

A present expense which would result house. There is provision made for electric lights on every chandelier in the building, and the expense of putting in a small dynamo would not only be com-paratively inconsiderable in itself, but would save the county a gas bill of about \$400 a month. Connections could easily be made with the jail and the County Hospital and much better lighting facilities be supplied for all three

me of the Gardena people, it is stated, are opposed to having much said in public print regarding the filthy condition of the "Nigger Slough" near that town. They object to it on the ground that it would injure the sale of property near there to have the public informed of the nuisance. This is a short-sight-ed policy. The smell cannot be hidden, and it is better to make energetic ef-forts for the needed relief than to endeavor to suppress the facts in the hope that the would-be purchasers of lots or small ranches will not discover the ac tual condition of things.

Ten days ago the men who control municipal affairs in this locality fairly slopped over in denunciation of the City Water Company's attitude on the fire-hydrant question. Philippics galore were indulged in by each self-respecting Councilman, and resolutions bristling with aggressiveness passed the august body with a whoop and hurrah. But in the mean time a change has come over the spirit of the councilhas come over the spirit of the council-manic dream. All is quiet along the Los Angeles River front, and though the hydrants remain in their deplora-ble condition, the councilmanic mind is indifferent to the prospect. Whence-oh! whence and why this transforma-tion?

Three locations to choose from Fico, Twenty-eights and Mapie, Fifth near Arcade Depot. Prices, \$200 to \$1000, all on monthly payments, just like saying rent, and no cash down. Langwarthy Co., No. 225 South Spring.

IN SOCIAL SPHERES.

The Y. W. C. A. boating fete heid last evening at Westlake Park was a delightful and highly successful affair. The boathouse was gaily decorated with fiags, palms and flowers, and was brilliant with electric lights. Each boat was lighted by a string of Chinese lanterns, and the effect from the driveway was extremely pretty. Lanterns were hung in the trees approaching the main entrance. The refreshments were served by the Misses Simmons, Abbie Gliman, Williams, Musseter and Knight. Delightful music was heard at intervals from a quartette of lady cornetists stationed in the anchored sloop. There was a large attendance, the boats were kept in motion the whole evening, the refreshments were generously patronized and the fact that the moon was in one of her shy moods did not in the least deter anybody from having a thoroughly pleasant time.

NOTES AND PERSONALS.

NOTES AND PERSONALS.

Mrs. H. Simmons, Miss May Simmons and George P. Simmons have returned from Santa Barbara, where they have been spending a few days.

Mrs. L. W. French, Mrs. J. D. de Frees, Mrs. E. Powers and Miss Powers left Friday morning for a two-weeks' visit to Catalina.

The usual monthly meeting of King's Daughters will take place this afternoon at 2:30 in the parlors of the First Methodist Church on Broadway. A full attendance is requested, and that the circles will be fully represented as final arrangements are to be made for the annual assembly of the order of Southern California, which will be held in Los Angeles September 7, in the First Baptist Church, corner of Sixth street and Broadway.

THE STEPPLER TRAGEDY.

Developments at the Coroner's In

Coroner Campbell held an inquest yes-erday morning over the remains of Ernest L. Steppler, the bricklayer and sa-loon-keeper who killed himself on ac-count of grief over the acts of his wayward son. The jury rendered a verdict of suicide in accordance with the facts, as already related.

interfered.

Mrs. Steppler's mysterious movement. resterday morning are accounted for by the statement that she went to the Porthe statement that she went to the Porter woman's house, presumably to consult with her in regard to the best plan to get the boy out of jail. Late in the forencon they called at Steppler's saloon at No. 110 North Alameda street, where they learned for the first time of Steppler's suicide. The two women, in company with the man Goodwin, are then alleged to have taken a hack, in which they proceeded to the Steppler residence. Later Mrs. Steppler drove to the police station and secured the release of her son.

Mrs. Porter claims she simply gave the boy a home in order to shield him from his father's abuse.

She Was Not Polsoned.

She Was Not Poisoned.

The inquest held yesterday over the remains of the little Bree girl who showed symptoms of having died from the effects of some kind of poison, resulted in a verdict of death from gastritis superinduced by acute appendicitis. An autopsy disclosed the fact that particles of egg shell and grape seeds had lodged in the vermiform appendix of the child, producing inflammation, and causing a high fever similar to that resulting from certain poisons. The case was a very peculiar one. How the child came to have egg shells in her intestines is not known.

FAILED TO SHOW UP.

I'wo Alleged Footpads Regain Their Liberty Cheaply.

Through the failure of the complaining witness to show up, J. H. Webb and Harry O'Neil, charged with robbery were yesterday released from the City Jail, although the officers were satisfied that there was sufficient evidence against them to hold them for trial. Webb and O'Neil were arrested on Fifth street about a week ago by Officers Bitch and Tyler and positively. cers Ritch and Tyler, and positively identified by Wallace McCallum, son of the well-known capitalist, J. G. McCallum, as two footpads who knocked him down and robbed him near the Arcade Depot. Young McCallum was thirsting for revenge when the prisoners were brought in, and he could hardly be restrained from striking them when they had the handcuffs on. When requested to leave his name and address so he could be summoned to attend the examination of the culprits, he hesitated on account of the trouble it would get him into with his father. After some persuasion he left his address and promised to attend the examination, but when wanted as a witness he could not be found. The officers are very indignant over his failure to show up, and the next time he ventures up town he may be nabbed for contempt of court. the well-known capitalist, J. G. McCal

ward son. The jury rendered a verdict of suicide in accordance with the facts, as already related.

The most important witness was Mrs. Steppler, widow of the dead man, who told of the family troubles because of the old man's quarreis with his son. She said when her husband threatened of the old man's quarreis with his son. She said when her husband threatened for surgancy, she told him he should never put him into jail, except over her dead body. Steppler grew very violent at times, and threatened to shoot himself several weeks ago, but his wife rot the revolver away from him. When steppler came home Wednesday vend Wille locked up for vagrancy, a quarrei ensued which was the sause of her leaving the house.

Some peculiar circumstances, it appears, were connected with young Steppler leaving his father's place to a father and stayed at the house of Mrs. Lens Porter, a Spanish woman, known as the "Black Beauty," residing on Banning street, a short distance east of Alameda street.

Con July 20 the sea the sea of Mrs. Lens Porter, a Spanish woman, known as the "Black Beauty," residing on Banning street, a short distance, east of Alameda street.

Con July 20 the sea of Mrs. Lens Porter, a Spanish woman, known as the "Black Beauty," residing on Banning street, a short distance, east of Alameda street.

Con July 20 the sea of Mrs. Lens Porter, a Spanish woman, known as the "Black Beauty," residing on Banning street, a short distance, east of the lad and turned him own of the lad and turned him overto his father, but the boy again escaped and went back to Mrs. Porter's house, Last Wednesday afternoon, as Steppler was on his way home from his father, but the boy again escaped and went back to Mrs. Porter's woman, in company with the boy and his father were taken to the police station, where the former was booked for vagrancy, as already related to the police station, where the former was booked for vagrancy, as already related to the police station, where the former was booked for vagrancy, as already related to the pol

LINES OF TRAVEL

GELES PETROLEUM.

The Oil Exchange Competing Pipe Lines and Additions to Tank Storage—The Probable Limits of the Producing Field—Derrick Notes.

July has been the most eventful month in the history of petroleum in the Los Angeles field. The largest pro-duction since the industry began, the formation of an oil exchange, the com-pletion of pipe lines and tank storage on the line of the railroads, and the settlement of the troubles between the oil men and the residents on the hills by the enactment of an ordinance that will prove to be an equitable compromise, are some of the results of the month The increase of production has come

are some of the results of the month just closed.

The increase of production has come from large wells—larger than any yet struck in the territory—which is very significant for the outlook of the business. The increase of the gas, causing intermittant "spouters," is a new feature in the field, and is especially encouraging. A greater pressure of gas would cause a larger flow of oil to the holes in the rock where the least pressure is. Richer oil rock and more gas as the derricks travel further northwest would indicate that the oil break is leading toward the mountains and the Newhall petroleum fields. But it may not run far in that direction. It is almost always a devious line, hard to follow and apt to break into Ys like cracks in ice. That it will go beyond the limits of the city, and that it will be traced by judicious "wild-catting," no one at all familiar with oil fields has any doubts. The mere momentum of the present industrial movement in petroleum at Los Angeles will reach all over Southern California in time. A strong effort should be made now to have our city become the home of this industry. We should not be the producers and allow some other city to be the mart and the place of refining. Cleveland, O., played this game successfully with Bradford and Oil City, and she is now pushing for the first place among the cities of Ohio, with a fair show of getting there in 1900. It should not be overlooked that Southern California has lost and San Francisco has gained a large oil refinery. This is significant, taken together with the fact that the metropolis of this Coast has long had the largest oil refinery on this side of the Rockies. The Oil Exchange is just now seeking a market in the North through a committee of directors. While this is very encouraging to the producers of petroleum in the Los Angeles field, it is not fiattering to the city. What are the Chamber of Commerce and the Board of Trade doing to help along the oil industry to bring factories here to consume the fuel, and distilleries to refi

the Pacific Coast Oil Company's extensive refinery.

Neither Los Angeles nor all Southern California can ever catch up with the pace of the production of oil, in consumption. It will be necessary to seek the markets in the cities of the North to relieve the excess of our output. They will take it at 40 per cent. over the home price. It does seem that such an advantage would give us the "pull" above any city on the Coast, to locate manufacturies here.

nanufacturies here.

It is well known that one of the ob-lects of the Oil Exchange is to spread abroad all the facts pertaining to our

covers the whole facturing.

The impression is abroad that California petroleum is only a fuel oil. This is erroneous. We have as good oil here for illuminating purposes as ever was for illuminating purposes as ever was for illuminating purposes as ever was produced, when the lightness of gravity is the test. The production of this grade is considerable, and it is found contiguous to the heavy oils. What is the natural gas but the escaped volatile parts of petroleum? It is well known that the gas is rapidly increasing in the horthwestern end of the Los Angeles oil field, where the "spouters" are located. The oil is still very heavy, but experienced oil operators are waiting and watching for a big strike of light-gravity oil in this part of the oleaginous vineyard.

# STRUCK PARAFFINE.

Higher Grade of 011 Found in Lower Strata.

A new and valuable grade of oil was struck yesterday in the well owned by J. E. Cook, on Metcalf street, near Temstruck yesterday in the well owned by J. E. Cook, on Metcalf street, near Temple. Mr. Cook has been boring for six wocks, and had reached a depth of 900 feet when the heavy flow was struck. The augur had penetrated through the first and second strata of sand, striking the usual grade of black oil with an asphalt base, although not in any considerable quantities.

At the depth of 900 feet a heavy flow of quite a different oil rushed into the pipe, and Mr. Cook realized that he had bored into a streak of rare good fortune. The new oil is green, very much resembling green paint in color and substance, and is upon a paraffine base, strongly impregnated with kerosene. It is twice as valuable as the black oil, having a specific gravity of .28 to an average of .14 in the black oil. This discovery will probably revolutionize oil-boring on the hill, because all the borers will now go to the deeper and more valuable stratum. This will require entirely different and much heavier machinery, for the seven and one-half-inch casing now in use will have to give place to that of nine and twelve inches in size.

This discovery throws a new life into the oil industry here in Los Angeles, and hints at vast wealth lying hidden under the hills.

week will be faster, even with the wind than has ever been riden there before Cromwell has a novice, it is said, who can do the mile in 2:20.

meets in Southern California in May.

This time the clubs will get up most of
the meets and put up most of the
prizes and not leave all the work to a newspaper man, as was the case in the Southern Circuit.

newspaper man, as was the case in the Southern Circuit.

The northern part of the circuit of the C.C.R.C.C. has been arranged as follows: Petaluma, August 23; Santa Rosa, August 24; Dixon, August 26; Woodland, August 28; Marysville, August 20; Sacramento, September 2; San Francisco, September 7; San Jose, September 9-10; Gilroy, September 11; Watsonville, September 12; Stockton, September 14; Napa, September 17-19.

By this plan many towns that have never given tournaments will be enabled to conduct up-to-date meets and possibly make some money. General cycling will be benefited considerably. Probably McCrea and some of the other Southern riders will take in the northern part of the State circuit and bring back a lot of the prizes. After these meets are over it is expected a series of meets will be run south of the Tehachepi.

THE CASE OF CHUNG SEE. Question as to Whether She Will be Deported.

The arrest of the woman Chung See by Chinese Inspector Williams, Wednesday still causes not a little excitement in certain circles in Chinatown. Th woman will be taken before the United States Commissioner this morning woman win be taken before the Onten States Commissioner this morning where proceedings looking to her deportation are to be commenced. She was ordered deported by the United States Court at San Francisco two years ago but when it was afterward found that by some means, she still remained in this country a warrant for her arrest was issued from the United States Court in this city. This was the warrant which Inspector Williams carried for nearly a year and on which he finally arrested the woman.

If, as it appears, another woman was deported instead of Chung See in the execution of sentence some interesting developments as to what action the courts will now take in the matter may perhaps be looked for.

Lang-Legier Marriage.

The wedding of W. S. Lang and Mrs. M. K. Legier of Bakersfield took place Thursday evening at No. 203 Leroy street, Justice Young officiating. The bridesmaid was Mrs. R. W. Richmond, and the best man, R. W. Richmond, and Mrs. Illiam government with decorated with flowers. A supper was served, after which Mr. and Mrs. Lang left for Coronado for a visit of two weeks. Upon their return they will be at home at No. 203 Leroy street. Some enjoyable music was rendered by the Haverly Quartette and other musicians. Those present were: Mr. and Mrs. B. M. Brown, Mr. and Mrs. McCarthy, Mr. and Mrs. J. B. Lang, Misses Jennie and Annie Francher, Messre. J. C. Mahoney, F. Fickett, Frank Bacigalupi, Arthur Hezeklaft, Frank Carter, Charles Underwood, Percy Williams and W. J. Dickson. Lang-Legler Marriage.

Police Court Notes. In the Police Court yesterday W. O. Huston was fined \$2 for violating the It cost August Bernard \$10 for violating the swill ordinance.

W. P. Lowry, a locomotive engineer, was let off with a fine of \$5 for speeding his engine too fast inside the city limits.

ing his engine too limits.

Jennie Riley, colored, was examined for assault with a deadly weapon with intent to murder, and held to answer in \$1000 bail. Being unable to give bonds, she was committed to the County Jail.

An Honest Man.

Mrs. A. J. Strout, No. 125 East Fourth street, was passing down Main street Wednesday when suddenly is became necessary for her to stop and tie her shoe. While so doing she laid down her purse containing 356 doilars, and forgot to pick it up. She advertised in The Times the hext day, and the finder promptly came forward, purse and all. There are honest people who crowd the midday throng of the streets, and the love of gold even in California does not always make one oblivious to the golden rule.

City Council Meets in Specia

ceived the report of the City Attorney with reference to the validity of the titles of various school sites purchased

purthouse. Only one department was ben beside the Township Court, and the principal business on hand was di-

## AT THE CITY HALL

he report of the City Attorney upon in number of sites for school buildings, which had been referred to him for in-restigation. The report follows: CITY ATTORNEY'S REPORT.

"I have prepared and herewith preent the following ordinances:
"An ordinance appointing commisioners on Twenty-first street in place
f, two who have declined to act."
dopted and referred to Alfred Solano
nd J. K. Walsh apointed as commis-

sioners for opening an alley between Sixth and Seventh, Main and Spring "An ordinance appointing commi

proved.
"A contract with the Meek Baking Company for furnishing bread."

"A contract with the same bread."
Approved.
"A contract with C. M. Hutchinson for furnishing hay for the street and fire departments." Approved.
"A contract with I. I. Starr for furnishing hay for same departments." Approved.
"A contract with John Rebman for Union-avenue school building." Approved.

"A contract with Pugh & Sons for Casoo-street school." Approved.
"A contract with Saffell & Wright for Sand-street school." Adopted.
"Julian Vaidez had brought an action against the city to quiet his title to a piece of land situated on the south side of Kuhrts street. I have examined the title to the same and would recommend that a disclaimer be filed in this action." Received.
"In the matter of the offer of Thomas Randall of lot 5, in block 4, of Mills's subdivision of the Sahichi tract for \$2000. Mr. Randall has furnished us with a deed properly executed and actionwished and a certificate of title dated July 30, showing the property vested in Mr. Randall free and clear of all incumbrances except taxes for cur-

vested in Mr. Randall free and clear of all incumbrances except taxes for current year. Mr. Randall's bid for \$2000 was conditional upon the privilege of his removing all improvements thereon and he has personally requested that upon the acceptance of the deed he be given sufficient time to remove the same. This deed ought to be recorded at once and provision made for holding, out the amount of taxes for current year, and that before payment of money the certificate be continued down to the date of recording the deed." Approved.

down to the date of recording the deed." Approved.

"In the matter of the offer of C. W. Tarr of lot 14, of block B, Colina Park, for \$1300. We understand that Mr. Tarr is acting as the agent of Abraham W. Clark, the owner of the property, and Mr. Tarr has furnished us with a deed and certificate of title showing the title vested in Mr. Clark free and clear of all incumbrances except taxes for current year. We understand that Mr. Clark is a married man and has had a quit-claim deed sent to Santa Barbara for his wife to sign. We recommend that this deed be placed at once upon record and the money to be paid over upon receipt of a quit-claim deed signed by Mrs. Clark, and that sufficient be retained to cover taxes. I think it best to call your attention to the fact that this is one of three lots in this block owned by three different persons which the city has agreed to take, and it may be that you will not desire to close the deal for this one until you are sure you will get the other two. And it may be well to call your attention to the further fact that the contract which I have herein above reported as drawn with John Rebman, covers these three lots." Approved.

"Councilman Stockwell moved that the City Engineer present an ordinance to Establish the grade of Chestnut street from Pasadena avenue north to Arroyo street. Adopted.

"The report of the Finance Committee,"

Establish the grade of Chestnut street from Pasadena avenue north to Arroyo street. Adopted.

The report of the Finance Committee, in relation to the leasing of a branch police station in Boyle Heights, was received and adopted. The report was printed in full in The Times of resterday and recommends that the station be abendoned.

Councilman Kingery moved that the city pay for the pipe to be used in the construction of a sewer on Seventh street between Maple avenue and Los Angeles street, and that Mr. Darcy be instructed to take care of the sewage while the shwer is in process of construction. Allopted. Councilman Munson moved that the City Treasurer be instructed to pay no demands for school after until abstracts or certificates of liftle show the ittile to be in the name of the city of Los Angeles. Adopted.

BOARD OF PUBLIC WORKS.

by the Board.

The time of the Board of Public

istening to parties who addressed the listening to parties who addressed the board upon the question of electric street-railway franchises in various parts of the city. H. E. Storrs, representing the Los Angeles Traction Company, presented a petition representing two-thirds of

a petition representing two-thirds of the frontage on Seventh and Eighth streets, along which route the company desires to obtain a franchise for their road. Mr. Storrs explained to the board the immense advantage which such a road would be to the residents of the locality through which it is in-tended to pass. Success would doubt-less have attended the efforts of Mr. Storrs to obtain the covered franchise less have attended the efforts of Mr. Storrs to obtain the coveted franchise had it not been for the fact that a protest against the granting of the franchise has been prepared in the last few days, and was yesterday presented to the board. The protestants urge that Eighth street, over which the franchise is desired, is but forty feet in width, and the laying of a double track on the street would render at almost useless for purposes of traffic. It was further stated by the signers of the protest that railways are already on Seventh and Ninth streets; and a railway on Eighth street is thus not to be considered a necessity. After the parties for and against the granting of the franchise had been heard, the board took the matter under advisement, pending an investigation of the question of frontage involved in the petitions.

T. C. Paxton, who had made the re-

fore the board and explain their posi-tion in the premises.

The board took action upon other matters submitted to them, as follows:

"Recommend that the proposal of Frank Chinoweth to improve Sixteenth street be accepted.

"Recommend that the Cfty Engineer be instructed to present an ordinance

supplying of stationery and other ar-ticles to the city schools during the coming year. The contracts for these

thousands of dollars, and the bidding is expected to be active and spirited. The manner in which bids are received and acted upon by the Board of Education has given rise to a great deal of criticism in the past, and insinuations and something stronger thair insinuations have been dropped by persons of authority in the matter, to the effect that more or less juggling has been indulged in by interested parties who have influential friends on the various Board committees. Instead of receiving these bids in open ession of the Board, where every suspicion of unfairness could easily be eliminated, the bids are opened in private by whatever committee has the matter in the bids are opened in private by whatever committee has the matter in charge. The bids are then referred to the entire Board, with whatever recommendation the committee sees fit to make. It is casily seen what opportunity this system affords for chloanery and unfairness. Complaints were made at the last meeting of the Board, by several members, of bids having been opened and supplies purchased when no member of the committee responsible for such actions was present, save the chairman. The custom of the City Council, as is well known, is to receive and open bids in open session, after which they are referred to the proper committees. The Board of Education makes its own regulations in this matter, however, and will doubtless under the present regime continue the custom now in force, in spite of its apparent faultiness.

Building Permits.

Building Permits.

Permits for building purposes were issued yesterday as follows:

William Sail, a two-story frame dwelling on Grand avenue between Sand street and Bellevue avenue, to cost \$1800.

Mrs. M. W. Montgomery, a frame dwelling on Twelfth street between Vernon and Union avenues, to cost \$1200.

# AT THE COURTHOUSE.

THE COURTS.

Nine-year-old Slugger is Brough Refore the Court.

Much amusement was caused yester-day in the Township Court, by the trial of Charlie Kelly, the abandoned young desperado, who so grievously belab-osed with a broomstick Mrs. Bridget

of ded with a brother of small boys adorned the courtroom, and to these embryo citizens, their playmate upon whom greatness had so suddenly descended, was a hero before whose glory

the exploits of Julius Caesar paled their ineffectual fires.

Mrs. O'Dea took the stand, and told her story, illustrated with much vivid pantomime. Mrs. O'Dea, it seemed, had been much annoyed by the depredations of the small boys of the neighbood upon her orchard. Her apples had disappeared in considerable quantities, and young Kelly, who certainly possesses the qualities of a future financier, had lately abstracted some prunes from the heavily-laden branches of the O'Dea trees, and had traded them off for watermelons.

On this particular occasion, Charlie Kelly and another small boy named Robert Melvin, had been having a social little time under the O'Dea apple trees, and had incidentally gathered in a barley-sack nearly full of, apples picked up from the ground. The old lady spied the younsters and sallied forth to eject them from the premises. They fied with the sack, shrieking to another boy to come to the rescue with his little wagon. Their united exertions enabled them to deposit the sack upon the Kelly domains before the irate woman reached them. Once there possession was nine points of the law, and those apples were, to all intents and purposes, their own. Acting upon this belief, they vigorously resisted the efforts of Mrs. O'Dea to drag the sack back over the border-line, and it was then that the broomstick came into play.

The testimony of the different parties conflicted

and was with difficulty persuaded into silence.

Mr. Williams then ordered the defendant upon the stand, and a subdued snicker rippled through the room as a small mosquito of a boy stepped forward and stood with his knees thooking together under the severe gaze of Judge Young. He told his story plainly enough, only gulping down a few irrepressive sobs when the attorney grew severely moral and admonished him paternally as to the error of his ways. He was finally released with the remark that a good switching seemed to be the proper penalty to fit his case; and Mr. O'Dea gave his testimony as to the general evilmindedness of the Kellys.

The last witness was a small shockheaded kid, the Robert Melvin who aided in the looting of the orchard, and, as the testimony of a very material witness, aged 5, was still wanting, and the boy was not at hand, the court adjourned, and the case was continued till Tuesday. Mrs. Spencer giving bonds for the 2000 bail.

The case of Requila Cucola vs. Joseph Cucola, an order to show cause why the defendant should not pay all-mony, pending proceedings for a divorce, came before Judge Van Dyke yesterday. The defendant was ordered to pay the plaintiff \$20 per month and

her costs.

Mrs. Carrie Vogt was yesterday granted a divorce from her husband, Herman Vogt, by Judge Van Dyke. The ground upon which the action was brought was extreme cruelty, and, as Mrs. Vogt was able to show that her liege lord had attempted to give her an impromptu bath, by pouring hot water over her from a teakettle, the decree was granted as prayed for.

Judge Van Dyke yesterday granted a divorce to Mrs. Fannie A. Mansfield, from her husband, Harry S. Mansfield, on the ground that he failed to file off

a divorce to Mrs. Fannie A. Mansheld, on the ground that he falled to file off the rough edges of existence by sufficient provision of necessary comfort and luxuries.

Mrs. Cemantha E. Thickstun came into Department Four yesterday with an application for divorce from her husband, James C. Thickstun, on the ground of failure to provide. Judge Van Dyke, having his hand in, the affair passed off without a hitch, and the decree was granted asporayed for. Charles F. Vallant was yesterday granted a decree of divorce from his wife, Mrs. Nettie Vallant. The case was tried on Thursday in Department Five, the advisability of granting the decree being taken under advisement by Judge Shaw.

An Opinion by Judge Shaw Concern

An Opinion by Judge Shaw Concerning Divorces.

Judge Shaw yesterday handed down an opinion in the Vallant divorce case, which serves as a definition of the common charge of cruelty.

"In actions for divorce on the ground of extreme cruelty, it must be shown not only that the acts of the defendant caused grievous bedily injury or grievous mental suffering, but also that the acts were willful, intentional or malicious; that is, that they were committer from a design to cause injury or suffering or from a neglect and disregard of the feelings of the other party. Where they are of such a character that the natural and reasonable effect of them would be injury or suffering then the intent to injure may be inferred from the act. But where the party is in poor health and the acts would not ordinarily produce injury or distress upon a well person, and are not unlawful and the injury or distress is produced because of the impaired health of the party then no such inference arises, and that must be shown by evidence, either direct or circumstantial, that the defendant was aware of the injury produced and that the acts were

A Chronic Embessler.

& Co. No. 106 North Main street w

en is charged with being a chronic

and is now in jail.

Green is charged with being a chronic embezzier. While working for M. Levi & Co. he embezzied sums to the amount of \$500. He was detected, but promised restitution, and, through sympathy with his family, he was spared arrest and exposure. He then went into the employ of Stein & Co., about December 1, 1894, and succeeded in paying Levi the sums he had taken, so the matter was settled.

About three months ago Mr. Stein detected irregularities in his accounts, and found that he was playing the old game of discounting bills on his own responsibility, and pocketing the proceeds, and also that various bills were not accounted for at all.

Mr. Stein charged him with crookedness, and the man broke down utterly, acknowledging with many penitent tears that he had taken the money, but promising full restitution and honest conduct for the future. On account of his wife 1nd two little children, Green was again spared the consequences of his dishonesty, but he falled to profit by the elemency of his employer.

In a very short time, the irregularities began again, and, early in July, Green collected a bill of \$300 and falled to turn it in. He was called to account, but given still another chance. It was all in vain, the same old thing went on with hardly a break. Green got to gambling heavily, and became unable to replace the sums he took from time to time. He borrowed money from everyone he knew, and at last embezzied the sum of \$256 from his employers. If was the last straw, and his arrest was ordered without further delay.

Frank J. Pattison has brought suit against Jennie Logsdon et al., to quiet title to a lot in the Sunset tract. Joseph J. Keller et al. have filed as suit against H. H. Mayberry et al., to certain sums on mechanic's lien. S. O. Eversole has filed an application for divorce from his wife, Mrs. C. A. Eversole on the ground of descriton. T. H. The charge of perjury against R. A. Buchanan was dismissed yesterday by Judge Young upon motion of the District Attorney, the evidence which he gave not being material to the case, THE SUPREME COURT.

Sent Down.

A second appeal from the judgment and from a refusal of a new trial was made by A. Eldred vs. the City of Santa Barbara, in an action brought by the city to collect a municipal tax, to which a general demurrer was inter-posed and overruled. The defendant appealed on the ground of alleged dects in the complaint, objections to the terest allowed the judgment is affirmed.

SUIT ON DEFICIENCY JUDGMENT. William W. Cockins, respondent, vs. Joseph A. Cook, appellant, is an appeal against the order of the lower court against the order of the lower court that a deficiency judgment be entered against the defendant on a suit to recover a \$20,000 mortgage on bonds issued by the Artesian Land and Water Company, in which the defendant was a stockholder. The mortgage was fore-closed, and the premises sold, but the sum realized not being sufficient to satisfy the amount found due the plaintiff on the bonds, a deficiency judgment against the company was docketed in his favor.

In this action judgment was entered against the defendant for his proportion of the deficiency judgment, and a new trial was denied. The judgment and order are affirmed.

SUIT ON CONTRACT. In the case of Harry Philip, respond-ent, vs. J. E. Durkee, appellant, the de-fendant appeals from the judgment remaint appeals from the judgment and from an order refusing a new trial, and also requests that the demurrer to the complaint be sustained. The suit was brought by the plaintiff as assignee of Fruhling Bros., and was entered with the view of recovering the sum of \$430, promised as payment to Fruhling

Robbery Averted.

Riverside, Cal., August 2.

One of the worst cases of robbery ever known is where croup steals in and carries away the beloved little ones. This needn't occur, and it wouldn't either if every mother took the precaution to always have Tip Top Cough Syrup on hand. This is the famous croup remedy that is being talked so much about. It can be purchased at any drug store for 80c a bottle:

Crops and Markets.

orange men have been wonder why the railroad companies decided to again advance the rate on oranges to points east of the Missis-River, which they did for ten days from July 21 to July 31. It is true that it did not make a very large amount of difference, because there are not many oranges left over in this section, but it served to make the marketing of what few there are more difficult than it would have been.

In dried fruits there has not been very much doing. In apricots business has been almost at a standstill owing to the fact that growers and holders ave not cared to make any purchases beyond what they absolutely need. Probably the market will come round again after a time, but it is to be regretted that the growers should not have been content with following the market up while it was in a sound and

In regard to peaches the latest re ports are to the effect that from 51% to 6 cents is being quoted as the price for good stock.

In prunes there are beginning to be some dealings for future delivery at 4 cents a pound. The New York Com-mercial Bulletin in a recent issue has the following interesting information regard to the Eastern prune mar-

in regard to the Eastern prune market:

"The absence of important, consuming demand, and the presure here of large stocks upon a considerable proportion of which holders were unwilling to incur the expense of cold storage, have had a depressing effect upon the market for California prunes. For several weeks past prices have been easing off, but the efforts of holders have recently availed little to move the burdensome supplies. The consuming trade at local and near-by points has shown some interest as the results of concessions made, but as a condition in the making of purchases, they have demanded the best goods at the lowest prices. It remained for Chicago to restore to an extent the equilibrium of the market, but it has not performed this kindly office without acquiring for itself advantages in the way of exceptionally low prices. In fact, the Chicago buyers have becured a considerable quantity of stock in Eastern markets at prices lower than have ever been known in the history of the trade. Thus, within the last two or three days sales have been made in New York at 5c for 60s to 70s, in boxes; 4½c for 70s to 80s, in boxes; 3½c for 80s to 90s, in bags; 3c for 80s to 100s, in bags, and 2c to 2½c for 100s to 120s, in bags. The buyers were ready to go on on this basis, but were unable to find sellers."

The Eastern markets appear to be

The Eastern markets appear to b retty well supplied with fresh fruit just now, large quantities of peaches ming in from the producing sections of the Atlantic Coast and the South.

The market for general produce has een fairly good during the week. Butter was a little weaker for a few days after the last report was written, but otherwise prices have kept up in a very atisfactory manner.

As might be expected, owing to the

large supply on hand, the price of hay dropped considerably, it now being duoted at \$7 to \$9 for oat hay, \$7 to \$7.50 for alfalfa, \$8 to \$9.50 for alfalfa baled

and \$7.50 to \$9 for barley.

Cheese has been held with a fair de nand at 11 cents to 12 cents for average thern California brands. For butter there is a wide range of prices, running to as much as 50 cents for fancy local creamery. Eggs have commanded a fairly good price, being quoted at about cents. For potatoes there is, as in the case of butter, a very wide range of bungling acts of the California Legisprices, the quotations running all the way from 65 cents to \$1, according to quality. There is a good deal of poor stock in the market which is slow of sale even at the lowest quotation.

A feture of the local market during the week, which has been referred to in the is the extension of business on the part are preparing to branch out into the Oriental market, which consumes a large amount of canned meats that hitherto been supplied from the East. It may be expected that this new departure will mark the beginning of an important export trade in that di-

Raise More Hogs.

Reference was made in the commercia olumn on Thursday to the development of the pork-packing business by the ahy Meat-packing Company, who have made a shipment of pickled and canned meats to China. At the same time attention was drawn to the fact that of the 55,000 hogs which this company is now buying every year, more than half are brought from the southern part of the San Joaquin Valley, and this in spite of the fact that the company considers pork raised in the uthern counties superior to that which is raised in Kern and Tular the same price. In the article referred to it was shown that the net yearly profit on two hogs—which can be raised profit on two hogs—which can be raised to a weight of 200 pounds each in that time—is \$7.90, figuring 600 pounds of ground barley as feed to each hog at 40 cents a hundred, and not including the expense of care. In the neighborhood of Los Angeles or other cities of consider-able size this profit might be largely in-creased by feeding the hogs partly, or reased by feeding the hogs partly, or for a time almost entirely, on swill from restaurants, which may be had in the cities for a trifle over the cost of haul-

meet the heavy taxation to which they

It is time that the fruit-grower and grain-raiser of Southern California should begin to learn not to despise small things, but to make the best of all his opportunities. We shall then hear less about failures in farming and fruit-growing, Meantime, with a steady cash market at hand, there is no reason why every man in this section who has a few acres of land under cultivation should not raise a little pork.

An Important Decision.

A few weeks ago the Superior Court in San Diego rendered a decision which is of more than ordinary importance, and the possible effect of which appear o have been in great measure overlooked. The court declared that the law enacted by the last Legislature, pro-viding for county fish and game wardens, is unconstitutional. The case or mandamus to compel the auditor to draw a warrant for the salary of C. H. ngelow, recently appointed warden for San Diego county

court took the ground that the law is void because the act of the Leg-islature leaves it optional with the supervisors to appoint such officers or not. The court holds that the Legislature alone has power to create such an

commissioners of the county are appointed, was approved in 1881, and amended in 1889, and again in 1891. The first section of the act reads (in part) as follows:

"Sec. 1. Whenever a petition is pre-sented to the board of supervisors of any county, and signed by twenty-five or more persons who are resident free-holders and possessors of an orchard, or more persons who are resident freeholders and possessors of an orchard,
or both, stating that certain or all
orchards, or nurseries, or trees of any
variety, are infested with scale insects
of any kind, injurious to fruit,
fruit trees, and vines; codlin moth, or
other insects that are destructive to
trees; and praying that a commission be
appointed by them, whose duty it shall
be to supervise their destruction as
herein provided, the board of supervisors shall, within twenty days thereafter, select three commissioners for the
county, to be known as a county board
of horticultural commissioners. The
board of supervisors may fill any vacancy that may occur in said commission by death, resignation or otherwise,
and appoint one commissioner each
year, one month or thereabouts previous
to the expiration of the term of office of
any member of said commission.

It will be noted that the wording of

It will be noted that the wording of this act is that the Board of Supervisors

this act is that the Board of Supervisors "shall" appoint. Sec. 12 of the act, as amended, reads as follows:

"Sec. 12. When a petition is presented to the board of supervisors of any county, as required by sec. 1 of said act, the said board of supervisors may appoint a commission, to consist of any number less than three members, at a compensation each of not less than 34, and if but one member, \$5, for each day actually engaged in the performance of his duties, under this act; and all the provisions prescribing the duties of and conferring powers upon the county board of horticultural commissioners contained in said act shall apply to the commission appointed under this section."

Now, it is claimed by some that the law under which the horticultural commissioners are acting, including the commissioner of this country, is illegal. If this is so, then the acts of the commissioners are illegal, including the placing of liens on orchards in cases where the proprietors have not paid for the cost of fumigating, which has been done in a good many cases.
It seems that there is no

lature.

Diversified Farming. One of the important lessons that

cannot be too frequently impressed upon the horticulturist in this section is the advisability of raising, as far as possible, everything that he consumes. This is especially desirable in the case is a fact that in this section, where small farms have been brought to greater perfection than in any other part of the United States, there is less of general farming than in almost any other section of the country; that is to say, there are fewer farmers who are to a great extent self-sustaining, pro-ducing the greater part of what they need for themselves and their families and livestock. In this section, where everything grows with such facility and so rapidly, it is certainly a peculiar state of affairs, and one which strikes the new arrival from the East with surprise, to see a farmer purchasing his vegetables and butter and milk. Yet this is altogether to often the case, and this undoubtedly one of the rea sons why so many farmers in this sec-tion fail to make a thorough success. There is too much of an attempt on part of many of our farmers to be specialists. They want to "ge in" for a certain variety of crop, putting all the means they have into it, including what money they can borrow, and, in short, act very much like the gambler who risks his all on the turn of a single card.

This is all very well in the case of those who are wealthy and who can afford to ride a hobby. With them farming is a luxury, just like owning a fast horse or a yacht, but to the farmer, who has to depend on the product of his land for a living from year to year, such a course is suicidal.

If the crop which he is raising happens to turn out well he may come out all right, but even that depends upon pens to turn out well he may come out all right, but even that depends upon the condition of the market, for sometimes even when the crop is good the market may be glutted from some cause or another and the price received by the grower consequently anything but satisfactory. At other times there may even be a partial failure of the crop from various reasons, and at the same time an unsatisfactory price, owing to over-production in other sections. At such times the condition of the farmer who puts all his eggs in one basket is still worse, for he is likely not even to make the cost of planting and harresting his eggs and penalty.

has to go into debt to carry himself over for another year.

It is at such times that the farmer who makes a practice of raising as far as possible everything that he consumes has the great advantage over his neighher who is inclined to look down upo such farming as something beneath the notice of an American and only for Chinamen and "Dagos." No matter how hard times may be, or how little a man may receive for his crop, if he raises al the milk, and butter, and eggs, and cheese, and pork, and fruit, and vegetables that he consumes, as well as raising all the food for his horses, and cow, and chickens, with a few extra eggs to exchange for groceries at the store, he is, with no rent to pay, alnost as well off even when there is a total failure of his main crop, as the average city resident who works for a salary, and just manages to come out at the end of the year with the food and clothing of himself and family, and the rent paid, and no debts. Then, when the farmer who raises his own ood does have a good year, and receives round prices for his main crop he is able to put most of that away as profit, instead of spending it to pay off debts which he has contracted previous seasons.

Let us have more diversified farming of the good old-fashioned sort and we shall hear less complaint than we now from people who make a failure of fruit growing.

The Linnet Pest.

Birds are not so numerous in this ection and do not cause so much East. Still, in some sections of Southern California they have done a con siderable amount of damage. amin Walton writes The Times from Compton that he was much troubled by linnets destroying the fruit buds of his apricot trees. This year they attacked the few apricots which he has as they commenced to ripen, and then the figs came in for their share of attention. picked off the ripe fruit, except such as they had attacked. Into this fruit he put powdered strychnine, and with dead birds.

Mr. Walton expresses the opinion that if this method of treatment were generally introduced there would be few birds left to destroy the fruit or buds birds left to destroy the fruit or buds in the following year. One drawback of this method is that it might result in destroying those birds which only occasionally feed on fruit, finding most of their food in bugs and worms, which do ten times as much damage to the or-chards and fields as the birds.

Value of a Garden.

Value of a Garden.

(Exchange:) The value of the vegetables garden to the farmer has been recently illustrated in the replies to the following question, which was sent out by the West Virginia State Board of Agriculture: "What is the value of the products of a good one-acre garden to a family?" The average of the answers, which came from each of the fifty-five counties of the State, was \$145, the highest being \$300, the lowest \$25, a majority ranging from \$100 to \$200,

Will not these estimates appeal to the man whose idea of a garden is to run off a few rows in the spring, plant collards and potatoes, perhaps beans and corn, plow them out occasionally when there is nothing more pressing, and then leave them to battle for existence against weeds and grass, wind and weather. It is a sad commentary on the business methods of too many farmers that they give more study to the various feeds best suited to building up and developing their live stock than to meeting the same needs in the family. A good garden should be one of the most conomical factors in every farm household, not only because it saves money, but because a variety of fresh vegetables conduces much to the health and strength of variety of fresh vegetables conduces much to the health and strength of the family, these being largely dependant upon diet.

And yet this question of what food

ontains, how it nourishes and whether is rightly fitted for the demands of the human system, has been but little

the human system, has been out studied.

Fifty years ago the world was in entire ignorance of the constituents which we now know to enter into every form of life, animal and vegetable. The last twenty-five years have revealed, in definite shape, many important facts, and research is continually adding to the knowledge thus gained. Among other knowledge thus gained. Among other things we have learned that the digestibility and best use of food depends largely upon variety, and that too great sameness, if long continued, is apt to impair the digestive organs. Sir Henry Thompson, a noted English physician, says: "I have come to the conclusion that more than half the disease which embitters the middle and latter part of life, is due to avoidable errors in diet."

When we consider that the regular diet of over one-half the farming and other laboring classes is bacon and bread, with little variation from year bread, with little variation from year to year, is it any wonder that we are bringing up a nation of dyspeptics?

Beyond the actual money value of our garden is this priceless health value. Surely we ought not to neglect the opportunity which every farmer at least has, of cultivating a variety of vegetables.

It is much better for the novice amateur to keep one good variety of fowls than three or four, for the first year or two, at least. It prevents the year or two, at least. It prevents the possibility of their becoming mixed, gives you an opportunity of studying the particular points in breeding, etc., and last, but not least, it does away with the many little details that are bound to be associated with four or five varieties.

Care of Growing Poultry.

BE WELL THIS SUMMER!

Paine's Celery Compound Restores Lost Nervous

For those many women who have their healthy tone. Persons suffering from rheumatism, neuralgia and any of the countless results of loss of nerve suffered through the in-door life of winter and spring, with tired nerves. sleeplessness, neuralgia, rheumatism, by the words "no appetite"-for the many worn-out women, many of whom will get no real vacation, but must at-tend the whole summer long to house-hold duties—for such women there is every need of a brisker feeding of the reduced blood and nervous tissues by means of the best nutritive agent in the wide world today—Paine's Celery

After building up the body by the use of this great modern restorative, diseases of the special organs, heart troubles, kidney disease, dyspepsia and leeplessness will disappear.

Neglect to satisfy the demands of the heavy penalties. Paine's Celery Com-pound, more effectively than anything else the world has yet known, restores health to men and women whose blood has been robbed of vitality from what-ever cause, and whose nerves have lost

and those who have the flocks on hand to meet the requirements will be the ones to profit by the return of demand. This should have been realized before by many who sold their flocks largely be cause they took a gloomy view this country.

growth has been checked by the presence of lice, the young fowls will always be less vigorous than they would have been if they had not been infected with them. Thick, sweet cream is better to grease the heads of young fowls afflicted with lice than meited lard; it will kill the lice and not injure the fowl, as lard is apt to do.

A very critical time for growing poultry is the time they shed their downy covering and before they are fully feathered. At this time they should be well fed and kept well sheltered at night and during damp weather. They are more liable to roup at this time, and exposure to cold and dampness is apt to result in this fatal disease.

Lime water and sweet milk will assist in feathering. A diet that will greatly assist in feathering. A diet that will greatly assist in feathering is prepared as follows: To a plnt of boiling sweet milk add two well-beaten eggs, let boil until the consistency of jelly, add a dash of red pepper. When given to the fowls place in a cool place in the shade to prevent its becoming sour.

Grit of some kind is as essential for young poultry as for adults. It is one of the requirements of nature. Place grit where they can get at it and see how eagerly they devour it, and you will be convinced that it is a necessary part of their bill of fare. The lack of grit will cause indigestion and bowel trouble. A constant supply of it within reach all the time will cause them to consume more food and thereby make a more rapid growth and reach maturity earlier.

It is important for growing fowls to have shade, where they can retreat out

earlier.

It is important for growing fowls to have shade, where they can retreat out of the hot sun. The extreme heat of the sun is debilitating to growing fowls and will retard growth. Ducklings are very sensitive to the heat of the sun.

Poultry, Notes.

Poultry. Notes.

(Florida Agriculturist:) Guineas are good layers, and when they are not too old their flesh is tender and sweet.

Many farmers do not know whether the hens pay or not, because they keep no account with them. If your wife has taken no interest in the poultry yard, tell her she may have all she makes of them, and they will roon show whether they are profitable cr not.

Possibly fowls go to their roost more from an instinct of self-preservation than for comfort. If made to stay on straw at the bottom of their coops they would be less exposed to draughts, less liable to lameness and freer from diseases. It might be worth trying.

There is no easy road to wealth even with poultry, and they require hard work and close attention. With these they pay better than most farm operations. Begin on a small scale, that your lessons may be at as Httle cost as possible, and climb up ag you gain courage.

American dairymen and creameryme want to watch Canada closely or she will steal away the butter and cheese trade from us. Canada is taking ex-traordinary measures to bring up the quality and increase the quantity of her dairy products, as well as to spread the dairy products, as well as to spread the sale of them all over-creation. American creamery men are not exerting themselves so much, possibly because we have a far larger market at home

no stiffness or lameness in the joints."
Testimonials from men and women in country might be published telling of similar speedy cures. They carry this plain advice to other sufferers: Take Paine's Celery Compound!

power find a marked change for the better almost at once upon faithfully using Paine's Celery Compound.

Mrs. James Arthur, whose portrait is given above, writing from her home in Spokane, Wash, says:

"I suffered for three years with

neuralgia and rheumatism. I tried different remedies which would give me only temporary relief. Last year

me only temporary relief. Last year in January and through the spring months I suffered terribly. I could walk only a short distance, and some days not at all. But then I began for the first time to use Paine's Celery Compound. It cured me permanently, and I have not been troubled since! My knees were so bad last year that I could not six down or get up alone.

could not sit down or get up alone. Now I walk every day, and it causes

situation, and imagined that the sheep business had received its death blow in

part of the stalk begins to turn yellow. If the head is well filled, it will then be ent over, and the berry will fill from the stalk better after it is cut than it will if the grain is left standing until dead ripe. The bran of wheat cut while the stalk is somewhat green is thinner, and its proportion of gluten

Refuse Lime for Fertilising.

(Chino Champion:) Recent analyses of the refuse matter from the of the refuse matter from the sugar factory show that it contains even a larger percentage of fertilizing

compounds than has been generally supposed, and we understand that it contains even a larger percentage of fertilizing compounds than has been generally supposed, and we understand that it will be thoroughly introduced not only among the fruit-raisers of Pomona, Ontario, Riverside, Redlands and other neighboring towns. No effort has been made heretofore to have the matter thoroughy tested, but now an opportunity will be given to see how valuable it is as a fertilizer. The company offers it free of charge and the only expense to the farmers is the trouble of hauling it away. Johnson & Pierce have been given the privilege of all land off the Chino Ranch, and whatever is taken by other farmers must be handled by their teams.

The general analyses were made of samples taken from different parts of the reservoir or "settling tanks," and showed an average in the solid matter of 67.2 per cent. carbonate of lime, and the remaining 32.7 per cent. was made up of organic matter and phosphates. Experience has proven that this composition is an excellent fertilizer for fields, and the European factories sell it to the farmers for from \$1.25 to \$1.50 per ton. But that of the European factories is only the lime cake from the fliter presses, while theadepost in the settling tanks here is made up of all the refuse matter from the factory, including lime cake, washing from the beets, and other organic matter. The waste water which runs through it makes a perfect diffusion and all the ingredients are well mixed, Mr. Hache values it at from 50 to 75 cents per ton more than the German or French lime cakes, or about \$2 per ton. cents per ton more than the German or French lime cakes, or about \$2 per

or French lime cakes, or about \$2 per ton.

There can be no question about the value of the organic matter and phosphates as fertilizers and their mixture with lime makes them even more valuable, for the lime effects the decomposition that gives to the plant life every sustenance that the soil contains. There is, of course, some nitrogen, potassium, and magnesium distributed through the lime compound, but only in minute quantities.

While the refuse matter is generally recognized as being valuable for beet fields, it has not been tried to any great extent in the orchards, but its chemical composition leaves but little doubt that it will prove a boon for the fruit-raisers.

Moi Driffil is of the convicer that it.

doubt that it will prove a boon for the fruit-raisers.

Maj. Driffil is of the opinion that it would be one of the best fertilizers obtainable for orange orchards. The orchardists who pay an immense sum every year for fertilizers would do well to investigate this.

There is an almost unlimited supply of the refuse matter in the factory reservoirs, and it is to be hoped that, the farmers and fruit-raisers who have not already experimented with it will give it a trial.

The sugar company will use a large

PASADENA.

PREPARING FOR A GREAT DAY AT

An Old-fashioned Entertainment Bed as a Burglar's Booty.

PASADENA, Aug. 2.—(Regular Correspondence.) The members of the local post G.A.R. who have had the arrangement of the programme for Pasadena day at the Santa Monica encampment, have completed their labors, and as a result have a fine treat to offer to the veterans and their friends. Rev. Clark Crawford will deliver an address. The Harmonia Opartette com-Clark Crawford will deliver an address, the Harmonia Quartette, composed of Messrs. Wood and Streble, Misses Peck and Stoutenbergh, will sing, as will also James G. Clark, Miss Bollinger and Clark T. Havens; Miss Glennie Pearl will recite, and the W.R. C. has issued a call for all members to be present and to wear the national colors; that is, to dress in white and wear red and blue sashes. Much interest is shown in the encampment this terest is shown in the encampment this year, and large numbers of Pasadena people have already gone down to Santa Monica, and will remain through the entire period of the meeting.

sants Monica, and will remain through the entire period of the meeting.

SWEET AND STICKY.

At the G.A.R. sall Thursday evening there was an old-fashioned entertainmen which was largely enjoyed by those present, and the Ladies' Aid Society of the G.A.R. Post were highly complimented on the success of the affair. Initiatory, exercises were held, two new members being taken in, and then after a "concourse of sweet sounds," there was a dispensation of sweet; syrup, boiled to the proper consistency for candy pulling. Then there was sport and "gorming" to the content of the most captious, and when the candy was ready to be eaten corn was popped, and served to the seventy-five members and their friends, and the pleasant evening was concluded.

PASADENA BREVITIES.

Nothing has been done as yet toward

PASADENA BREVITIES.

Nothing has been done as yet toward the removal of the track of the electric road on the short street between Columbia and Fair Oaks avenue. E. C. Webster was seen today regarding the matter, and declared that the people of the town should donate sufficient land along the line of the tracks on that unnamed street to permit of a highway of a proper width. He says that since the electric company is willing to come in and furnish the people the best of transit facilities, it is the duty of the town to afford them the proper conditions therefor. He says that the City Council has the power to condemn the land along the track there and turn it into the street, and should do so. The Council will not take this action. The Trusbesch have notified the electric company to remove the obstruction, and it will probably have to de see the tree. pany to remove the obstruction, and it will probably have to do so, or to buy enough land along the line on the street mentioned to make the street from curb to curb forty feet in width.

J. W. Baker, who has been airing a family row in court of late, today withdrew the charge of malicious mischlef ageinst his brother-in-law, Jesse Millison, substituting that of burglary. The offense with which Baker charges Millison is that of breaking into his house in his absence and taking a feather bed. The case is set for Tuesday at 10 o'clock.

D. W. Dayls a corrector fell a disc

day at 10 o'clock.

D. W. Davis, a carpenter, fell a distance of about fifteen feet, Thursday afternoon, as he was carrying shingles to the roof of Mrs. Farnsworth's new house, on North Raymond avenue. He was picked up insensible and carried home, but is doing nicely today, and will soon be about again.

J. J. Harris and family of Iowa and Mrs. Fisher from Rockford, Ill., are among the new residents of Pasadena. The former will occupy a residence on Locust street and the latter will the Kitchener dwelling, on East Colo-

w. H. Moulthrop, traveling auditor of the Southern Pacific road, was in Pasadena Thursday. Mr. Hood, the chief engineer of the company, who has been here for a week, will leave Saturday morning for the North.

Saturday morning for the North.

Mr. and Mrs. O. S. Farwell of North
Pasadens, who have spent July at
Santa Monica, will go north on Saturday by steamer, en route to the
Slerras. They will spend some time in
the northern resorts.

A strong force of wheelmen, members of the Crown City Cycle Club,
will go down to Los Angeles Saturday
evening, to attend the performance of
"Around the World on Wheels," the
bleycle drama.

The president of the John Godford

The president of the John Godfrey Post, Relief Corps, desires that all members of that body who can possi-bly do so will be present at Santa Monica, to act as a reception commit-

Monica, to act as tee.

The Fruit-growers' Association convened this afternoon in the office of the secretary, and made the arrangements for the annual meeting Monday in the recorder's office.

Hon. H. W. Ogden, once a citizen of Pasadena, but now living in Louisiana and a member of Congress from that State, is visiting friends here. His family is at Long Beach.

Bighten young people of Pasadena

Eighteen young people of Pasadena made a; jolly excursion by moonlight to Verdugo, Thursday night, and upon their arrival there enjoyed a water-melon feast.

The members of the Pickwick Club are urgently requested to meet in the rooms of the club, Saturday evening at 8 o'clock, to consider matters of im-

at 8 o'clock, to consider matters of importance.

Mrs. William Faulkner and Miss Faulkner, who are visiting the seaside resorts, will spend the month of August at Corenado and La Jolla.

C. E. Nicholis has just disposed of his Eastern interests, and intends to make Pasadena his permanent home.

Mrs. Furlong of North Los Robles avenue departed today for a visit to friends and relatives in Kentucky.

Messrs. Theodore Coleman, J. H. Stearns and W. R. Staats will spend Sunday at Wilson's Peak.

A rare opportunity to secure bargains at Gardner & Webster's clearance sale, August 3 to 13.

Mrs. L. C. Torrance will leave Pasadena Saturday for a visit in Santa Barbara and vicinity.

Great clearance sale at Gardner & Webster's, commences August 3 and continues ten days.

Miss. Blissbath Hibbard, and Miss Whittaker will leave for West Virginia carie past week.

Long forty or fifty young poople.

Miss Ella Moore, on North Euclid avenue, last evening, and spent a few hours in a pleasant social manner.

Special sale of Vermont maple-sugar cakes at Barnes, No. 5 East Colorado street.

VICTOR.

The Irrigation and Mining News of the Neighborhood.

VICTOR, Aug. 1.—(Regular Correspondence.) Mr. Sweet, a Los Angele spondence.) Mr. Sweet, a Los Angeles real estate man, now in the East, and Gen. Howard, a brother of one-armed Gen. Howard, have formed a company, called the Columbia Company. This company has gained control of the option on the Victor dam site. Mr. Widney, or the Hesperia Land and Water Company, has an option which runs out this month, but may be renewed. The proposed reservoir would be principally on land at present owned by James Brown, the Mojave cattle king. He has bonded to several companies before, and every time the bond has run out and nothing further done. It is stated that the Columbia Company means business this time. A new reservoir has been started at the Burcham Rancho. Some people say it is only to get money out of the Columbia Company.

THE LONE STAR. Andy McFarlane has come up to the mountains for a few months, to es-cape the desert heat. He shows some cape the desert heat. He shows some fine, pure quarts ore, liberally flecked with free gold. This camp, to which Mr. McFarlane has given the name of the Lone Star Mining District, is about eight miles north of Leach's Point and about seventy miles from Daggett. With ore assaying from \$75 to \$250 per ton, this looks like a good thing,

The Holcomb Valley Company is run-ning its dredges and amalgamators to only about one-tenth their capacity only about one-tent their capacity, or water. The superintendent, Mr. Thame, is sinking a shaft for the precious fluid. At a depth of sixty feet the ground is still dry, but the expert who advised the work predicts a river of water within twenty feet.

THE ROSE.

The Rose is shipping its high grade ore, \$200 per ton, right along. The five-stamp mill is kept busy on the low grade rock. Jack Morris has struck it rich on the old Bismarck claim; he is running a drift on the hundred-foot level, and taking out a high grade but somewhat pockety ore. From the amount of work going on, this camp bids fair to be of much importance in the future.

This claim is showing up in good shape. The miners are at work on the ledge, and the farther they go into the ledge, and the farther they go into the mountain, the wider grows the vein, yet without suffering any deterioration in the value of the rock. Mrs. Townsend, her beautiful children and Miss Win-nie Davis are keeping camp in the most approved style.

MORONGO The Morongo mining district is shooting ahead. The Altura Mining Company has ordered a five-stamp mill which will be put up at once. The Mo-rongo King Mining Company, with which Judge Campbell is connected, is still prospecting with favorable results.

NOTES. Mrs. James Curtner, nee Hood, was been elected teacher of the Victor school.

There is a large crop of alfalfa on the Mojave this year, and hay is cheap.

SANTA MONICA.

Santa Monica Club—The Camps—Le cal and Personal Mention.

SANTA MONICA, Aug. 2.—(Regular Correspondence.) At a meeting of the old whist club at the clubrooms last night the work of reorganization was completed and the name changed to plain "Santa Monica Club." Under the constitution and bylaws adopted three constitution and bylaws adopted three directors, who constitute a Finance Committee, were elected, T. R. Owen,

constitution and bylaws adopted three directors, who constitute a Finance Committee, were elected, T. R. Owen, Max Barretto and G. B. Dexter being chosen. The general policy of the club will not be materially changed, except that it will keep open house throughout the year under the present organization. The monthly entertainment of the ladies will be continued.

All is activity at Seventh-street Park again today, and tents are going up as fast as men can be had to place them. Several families are already in camp and more coming daily. The real encampment does not begin until Monday next, but by that date there will be several households who will be veterans in camp life. The prospect for a large attendance is still bright.

Los Angeles creditors have closed the Acme salbon, which was yesterday transferred to P. Gamberl, on attachment for debt. This is number two of our drinking places to go by the attachment route within the fortinght. The Spiritualists' camp was all but deserted today, its membership having gone pretty much in a body upon a visit to the Soldiers' Home.

The ladies of the G. A. R. entertained at their hall last evening, the programme including social and dance.

Saturday evening at the plunge will witness a programme of varied exercises and attractions, including the first heat of a 100-yard swimming race, to be contested by local experts.

Mr. Raynor has completed the cast for the play "Creole's Love," which will be rendered here within the first half of August, date yet to be fixed.

The Southern Pacific pay-car was along the line on its errand of pleasure-giving today.

F. G. Kay and sons, Phoenix; W. P. Moore and daughters, Albuquerque, and W. H. Beecher. Chicago, were among the Jackson House ardvals to-disc.

The July report of the health officer will show four births and eight deaths for the month.

Among the Arcadia's arrivals today were James T. Du Bois and family, Washington, D. C.: Elsie Paster, Germany; Max Russack and wife, St. Louis, and William S. Tevis, Bakersheld,

ORANGE COUNTY.

THE CREAMERY AT WESTMINSTER WAS NOT MISREPRESENTED,

se-building the Principal Mode of Improvement in Santa Ana— The Railway Situation at Ana-heim—News Notes and Personals.

SANTA ANA, Aug. 2, (Regular SANTA ANA, Aug. 2.—(Regular Correspondence.) A communication has been received at the Times branch office from a prominent resident at Westminster, stating that the creamery at that place was not correctly represented in these columns a week or more ago, when mention was made that there was a "war on" between the creamery contractors. the creamery contractors.

The correspondent is, perhaps, the victim of some over-zealous agents of creamery supplies and machinery. No nsinuation was made in these columns that the factory at Westminster was not of the best, the only question at issue being the cost of such institu-

tions.

The Westminster enterprise is a combined creamery and cheese factory, and, so far as known, at the present time is giving the best of satisfaction. It began operation a few days ago, and the product that it turns out is a credit to Orange county.

ORANGE COUNTY BREVITIES.

The Southern Pacific Railway Company has, so it is reliably reported, accepted the restrictions in the franchise through Anaheim. This matter once settled the road will, no doubt, be built through to Long Beach from that point in a very short time.

M. Greenleat, Sheriff of Yuma county, Ariz., has been in Santa Ana the past week, renewing old acquaint-ances. The gentleman was at one time a resident of this portion of Southern California, and has many friends here. California, and has many friends here.
(Hemet News.) J. Reinhaus, Miss Reinhaus and P. Reinhaus of Santa Ana, who have been stopping at Millard's Springs, came out to Hotel Mayberry Monday and from here went to Strawberry Valley for a short season.

City Clerk Tedford received a telegram this (Friday) evening that his wife, who is at her sister's home in East Los Angeles, was again in a very critical condition. Mr. Tedford left for Los Angeles on the evening train.
C. P. Deyoe of Santa Ana brought

C. P. Deyoe of Santa Ana brought some very fine samples of peaches to The Times branch office, which, he stated, were grown on trees planted out but fifteen months ago. Verily Orange county soil "do beat the world."

F. B. Sprague, a native of Ohio, died today (Friday) at his home in Orange. The funeral will be held from the late residence tomorrow (Saturday) morning at 10:30 o'clock. Deceased was 44

ing at 10:30 o'clock. Deceased was 14 years old.

Mrs. W. F. X. Parker, who died in Los Angeles a few days ago, was a former well-known young school teacher in Santa Ana. There she is known bet-

name.

House-building is still the popular mode of improvement in Santa Ana. The northeastern portion of the city is improving faster now in the building line than it ever has before.

Miss Mattle Carrier of Phoenix, Ariz, in Santa Ana to make Mr. and Mrs. N. A. Ulm a visit of several weeks.

Robert Arborn and family of Santa

Robert Arborn and family of Santa Ana have gone to Coldwater Canyon, up in the Temescal Mountains, for a mentily a rest and recreation.

Mr and Mrs. James G. Welch departed from Santa Ana today (Friday) for their home in El Paso, Tex., after a month's pleasant visit in California.

pleasant visit in California.

The furnishings in the new Exchange Bank are now in. By Saturday evening everything will be made ready for the opening Monday morning.

Leland Bagley of Los Angeles visited his mother, Mrs. M. L. Bagley, in Santa Ana, several days the past weck. Mrs. Lillie and Miss Flora Cummings of Los Angeles are visiting friends in Santa Ana for a few days, T. Billings and wife of Santa Ana T. Billings and wife of Santa Ana have been down by the raging sea at Santa Monica the past week.

Charlie West and family of Santa Ana have gone to Newport Beach for a two weeks vacation.

Miss Leels Cleyton of Santa Ana to

a two weeks' vacation.

Miss Leola Clayton of Santa Ana is in Santa Barbara, visiting Miss May Usher for a few weeks.

C. H. Rowan, wife and little girl of Riverside visited friends in Santa Ana the past week.

Mrs. E. B. Smith and children of Santa Ana are at Newport Beach for a week or ten days.

W. H. Moran and family of Santa Ana are spending several weeks at Newport Beach. Mrs. W. R. Rose and daughter of Santa Ana are at Long Beach for their

summer outing.

The county books are being experted by J. H. Harrison of Tustin.

ONTARIO.

ONTARIO.

ONTARIO, Aug. 2.—(Regular Correspondence.) There is more activity in Ontario along ail industrial lines than in any other town of its size in Southern California. Fully 200 men are employed on the water developments, a large crew is at work putting in a town sewer system, building operations are lively and considerable work is being done in fruit shipping and curing. When work is begun on the domestic water system the water company directory has promised for the people there will be no need for a single unemployed man in Ontario.

Justice Rhodes of Chino will fill the office here in the absence of Judge Hardy, who is visiting friends in Santa Barbara.

Barbara.

The fruit shipments for the week included 384 boxes lemons, 890 pounds green fruit and 39,250 pounds of dried fruit. This is the first week since December that oranges have not been

W. A. Sampson and Miss Josie Grant of Chicago, C. C. Hines and family of Chicago, C. C. Hines and family of Chicago, Wis, and W. O. Smith of Lower California.

A. Charlsworth left for Detroi

Lower California.
Ontario has a colony of about fifty people at Long Beach.
Mrs. McFarland and Miss Eva Stewart are at Santa Monica for the summer.

SAN DIEGO COUNTY.

Water Needed Before More Rail roads-Special School Tax. SAN DIEGO, Aug. 2.—(Regular Correspondence,) The result of the observations of B. P. Cheney, Jr., president of the Land and Town Company, and of John D. Spreckels, who are probably responsence. The result of the observations of B. P. Cheney, Jr., president of the Land and Town Company, and of John D. Spreckels, who are probably the largest and most influential investors in this county, is the opinion, since their recent visit here, that San Diego's first need is the development of a comprehensive water system. This development they insist must precede the development of more railroads to the East. They hold that when the fruit acreage is properly developed there will then be business enough for Eastern roads to build in here. The committee of leading citizens appointed to devise a plan for securing water and railways for this city consulted with Spreckels and Cheney and agree with them that increased irrigation facilities are the first requisite for San Diego's progress. This committee says: "The matter of propositions toward immediate railroad construction were considered by your committee, but they have concluded that the development of water through the aid of the city was at this time the only hope for any immediate railroad development." This report embodies the opinion of intelligent citizens and is a dignified presentation of the county's need which enthusiastic would-be transcontinental railroad boomers will do well to heed. The loudemouthed yawpings of penniless boom adventurers are beginning to cause weariness among the people they so persistently annoy with supplications for cash, postage stamps and their personal living expenses.

Wallace J. Miller, arrested by United States Marshal Wadham for counterfeiting, professes innocence. He passed bogus 45 gold pleeve of Cincinnati is expected soon to re-open the old cable.

tetting, professes innocence, He passed bogus #5 gold pieces among the merchants.

George B. Kerper of Cincinnati is expected soon to re-open the old cable road with electricity. It is rumpred that he will extend the road to National City.

The validity of the special city school tax of \$56,000, voted July 29, will be argued in the courts next week. opponents of the tax maintain that under the city charter the Council can levy a tax for all running expenses of .90 per cent, and also a tax of .35 per cent. for interest on bonds. They claim that the special election held July 29 was the same as is held by country school districts, but that such an election under the city charter is invalid because the full tax permitted this city has already been levied. Although the \$36,000 special tax was voted for by about twelve hundred for and four hundred against, the minority includes some fighting taxpayers who promise to oppose the tax to the bitter end.

Three lots on University Heights have been sold by S. Honeycutt to E. E. Turner for \$4000.

W. A. Shaw has been licensed to marry Mrs. H. M. Hill.

Lawyer James E. Wadham will marry Mrs. Hell. E. Lockwood on August 6. This will be the swell, wedding of the season.

W. S. King files notice, appropriating.

This will be the swell wedding of the season.

W. S. King files notice appropriating 20,000 inches of water in Dye Creek for irrigating purposes in El Cajon.

Fred J. Smith of Los Angeles has been appointed receiver of the Villa Caro Ranch, El Cajon, owned by S. M. Marshall. The property is worth \$30,000 to \$60,000.

In the case of L. W. Green vs. O. J. Stough for damages growing out of a transfer of stock in the Morena Company, a judgment has been rendered for Stough.

The D-street car line has been extended to Twenty-fifth street, thus accommodating Golden Hill people.

POMONA, Aug. 2.—(Regular Correspondence.) The railroad attorney sent out by the Southern Pacific Company this morning and the committee of trustees with their attorneys, held a conference of several hours in the City Hall in reference to the terms of the franchise in question, to be introduced at the next meeting of the City Trustees on Tuesday evening, August 6. This, it is understood, is the prelimin-ary meeting of the Conference Com-mittee with a view of mapping out the

guiding points.

The Board of Education and Super-intendent of the public schools, of Po-mona have decided upon some bene-ficial changes for the future, the course in the High-school department will be in the High-school department with be enlarged by several branches of study, certain ones of which will be hereafter optional with the pupil; and the kin-dergarten will be transferred from the old Central-school building to the "An-

dergarten will be transferred from the old Central-school building to the "Annex," so that the fourth grade can be removed from the High-school building into the old Central, thus giving more room for the High-school pupils, which is badly needed.

The going ahead of this prosperous community is evidenced by the fact that the telephone system and facilities here are to be enlarged to a one hundred-subscribers' capacity, instead of fifty as it now is.

The first grapes of the season, a small variety known as the Reavis, are now in market in Pomona.

Mrs. G. W. Ogle, whom it was hoped a sojourn in San Antonio Canyon would benefit, was brought down on yesterday, and died at the family residence in this city this morning.

At the annual election by Co. D. Capt. W. O. Welch and First Lieutenart.

Dr. Ezell, son-in-law of Josiah Gregg.

Carl Rolph was chosen second lieutenant.

Dr. Ezell, son-in-law of Josiah Gregg of this place, has just arrived with his family from the East.

Judge H. S. Finney and bride have arrived from Detroit, Mich., and are at the Palomores.

Mrs. C. F. Loop, Sr., has done the handsome to the young ladies of the Fruit and Flower Mission by presenting them with a check of \$500. This has been for years the leading benevolent organization of this city, and this thoughtful action of Mrs. Loop will enable them to ald many a deserving needy fellow-being.

Louis Kloess and Ed Pendleton and family have gone to Warner's ranch to try the hot springs there.

Mrs. Gen. Howe is expected home this week from her extended visit in Arizona.

SAN BERNARDINO COUNTY.

THE MAIN LINE OF THE SOUTHERN PACIFIC WANTED.

There Will be a Bull Fight on Mexican Independence Day if the Authorities Permit it—Contracts for Indian Supplies.

SAN BERNARDINO, Aug. 2.—(Reg-ular Correspondence.) Last evening an adjourned meeting of citizens was held at the Courthouse, presided over by Judge F. W. Gregg, to hear the report of the committee, consisting of James Fleming, H. L. Drew and Capt. N. G. Gill, appointed to correspond with the officials of the Southern Pawith the officials of the Southern Pacific in relation to building their line in to this city. The committee made its report, submitting the correspondence. The committee's letter extended a cordial invitation on behalf of the citizens to build into the city, and assured them of a hearty co-speration in securing rights-of-way, etc., inquired as to the possibility of placing the city upon the main line, but expressed a wish for direct connection with the road whether it would be practicable to run the through trains via this city or not.

to run the through trains via this city or not.

The following reply was received from H. E. Huntington.

LOS ANGELES (Cal.,) July 29, 1895.

James Fleming, H. L. Drew, N. G. Gill, committee, San Bernardino, Cal.—My Dear Sirs: Your favor of the 24th received, extending an invitation to the Southern Pacific Company to build a line into San Bernardino from Redlands. I think I could persuade our people to build the line on condition that we were given right-of-way.

I notice what you say in relation to our running through trains through San Bernardino; that is a possibility, but not a probability. I think your city would be very much benefited by running our local trains through the city.

but not a probability. I think your city would be very much benefited by running our local trains through the city.

In all probability all of our local trains between Los Angeles and Redlands would run via San Bernardino.

I regret very much that I will not be able to meet your committee, but hope to be in Southern California sgain in about two weeks, when, if it is desirable, I will give myself the pleasure of meeting you.

Thanking you for the kindly interest manifested, I remain Yours truly, (Signed)

The committee concluded its report with the following recommendations:

"From the above communication you will see that the question of the main line is not to be considered at this time. Still it is the opinion of your committee that, while we cannot get all we ask, it would still be of vast importance to this city, to get the Southern Pacific to build into our city, even on a branch line that would carry only local trains.

"We further feel that it is the duty of all true citizens to aid in some way in securing for these people such rights-of-way as are asked, at the best possible figures, and we yould recommend that a committee be appointed on rights-of-way, and also that a similar committee be appointed and known as a finance committee, to canyass our city and vicinity and raise all funds possible to reduce the costs of rights of way."

The report of the committee was unanimously adopted, and the committee continued, to conduct further correspondence and meet Mr. Huntington when he visits the city.

As chairman, Judge Gregg appointed as members of the Committee on Rights-of-Way, G. A. Atwood, H. M. Barton and J. S. Purdy; on finance, T. H. Goff, E. E. Katz and C. P. Barrows.

SAN BERNARDINO BREVITIES.

SAN BERNARDINO BREVITIES. SAN BERNARDINO BREVITIES.
The contracts for furnishing supplies for the Perris Indian school have just been awarded. The contract for furnishing 30,000 pounds of meat went to J. S. Purdy. A. M. Ham was the lowest bidder on 30,000 pounds of barley and 35,000 pounds of flour. The contract for coal was secured by a Riverside dealer, and the bids on wood were made exactly the same by A. M. Ham and Hooks Bros. of Perris. The contract has not yet been awarded.

The committee having the flesta for September 16 in charge are rapidly maturing their plans. To test the question as to whether a bull fight can be had a trial fight will be held and

question as to whether a bull fight can be had, a trial fight will be held and the matter taken into the courts and settled so that there will be no sud-den alteration of the programme on account of official interference.

account of official interference.

A matched game of tennis will be played at the club court, on Sixth street, about August 15. Frank Copeland and E. E. Norwood issued a challenge to any other players of loubles, best two in three, and the challenge was accepted by Miss Ella Lawson and Charles A. Whitmore. All are expert players.

Chino will still be a dry town. The pert players.

Chino will still be a dry town. The man who had the temerity to pen a winery there and operate it in defiance of the Board of Supervisors, or its ordinances, is assessed \$75 for his "defi," and a winery is not thought to be profitable in the face of such opposition

The articles of incorporation of the

The articles of incorporation of the National Building and Loan Association, a Los Angeles institution, that has been in existence there since June 8, 1889, were filed in the office of the County Clerk here yesterday, it being the intention of the company to do buusiness in this county.

to Stanford Universely as of the next semester.

Mrs. C. W. Melter and Miss Elizabeth Burt have returned from Santa Monica, where they have been occupying their cottage for several weeks. They are only home for a few days.

Mr. and Mrs. James Fleming left for Squirrel Inn this morning. Mr. Flem-ing will return at once, but Mrs. Flem-ing will spend the heated term on the

Lewis Jacobs of the Bank of San Ber-nardino, and his daughter, Miss Lena Jacobs, leave for San Francisco Satur-day.

Postmaster J. H. Boyd and family will leave for Little Bear Valley tomorrow.

About seventy people are encamped in the vicinity of Highland Mills.

Mrs. L. P. Bedgood will go to Ocean-side tomorrow to spend a month.

REDLANDS.
REDLANDS, Aug. 2.—(Regular Correspondence.) Months ago a water-locater, after making a careful test, declared that a flowing stream could be struck in the grounds of the Union High School at a depth not to exceed seven hundred feet. To sink a well of this depth, it is estimated, would cost from \$1500 to \$2000. A plan is on foot to enlist the interest of enough citisens so that by subscribing file each, a sufficient amount of money to carry out the scheme would be forthcoming. A number of public spirited residents have already signified their willingness to take hold of the project, and, in fact, are enthusiastic over the proposed enterprise. But the more conservative do not favor beginning work on one water-locater's

# CASTORIA

for Infants and Children.

HIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing, It is unquestionably the best remedy for Infants and Children e world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have omething which is absolutely safe and practically perfect as a child's medicine.

> Castoria destroys Worms. Castoria allays Feverishness,

Castoria prevents vomiting Sour Curd. Castoria cures Diarrhes and Wind Colle, Castoria relieves Teething Troubles.

See that you get C-A-S-T-O-R-I-A,

Casteria cures Constipation and Flatulency. Casteria neutralises the effects of carbonic acid gas or pois Castoria does not contain morphine, opium, or other narcotic property. Castoria assimilates the food, regulates the stemach and bewelt,

giving healthy and natural sleep. Castoria is put up in one-size bottles only. It is not sold in bulk, Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose."

opinion alone, and it has been suggested that the services of one or two other water witches be employed first, and if their testimonics are uniform with the verdict of the first water-locater, then to begin work without delay.

Should this experiment be made, and be found successful, it is believed that at least a dozen wells would be sunk at once through private enterprise. At first thought this would look as though the new water supply would seriously cripple the work of the Redlands, Lugonia and Crafton Domestic Water Company, but careful reflection would not so idnicate. The Domestic Water Company could easily dispose of its present supply of water for irrigation purposes, and in turn could buy artesian water to take its place, and not only that, but the company itself would probably put down wells on its own territory.

He is a great lover of bicycling, and has his wheel with him.

A New Irrigation Act.

Secretary F. L. Alles of the National Committee of the Irrigation Congress said to a Times reporter yesterday that an act similar to the Wright act will probably be presented for approval at the congress to be held in September in Albuquerque. Since the recent decision of Judge Ross on the validity of the act in question there has been a good deal of correspondence on the matter passing between people of the country interested in irrigation.

It is expected that at the coming congress an act will be prepared with a view to having it adopted in as many of the States of the arid West as may be. It is thought that C. C. Wright, au-

It is thought that C. C. Wright, authere of the Wright act, and others will prepare the proposed act. This, it is understood, will be drawn in some re-
